

429th Knowledge Seekers Workshop; 21 de Abril, 2022

(Revisão e Transcrição feita, , necessidade de, Frases Chave, Palavras Chave - Índice Rápido feito)

(A transcrição automática do Elias usa o negrito)

São necessários 150.000 Euros até o final do dia para iniciar os Institutos.

Não deixe lixo no Universo com a fisicalidade do homem.

Ensinamentos ocultos

Temos que respeitar tanto a Alma da Fisicalidade, quanto a fisicalidade. A fisicalidade é uma amalgamação das almas, que por suas interações e trabalho coletivo, criam a Alma da Fisicalidade em interação com o ambiente. Esta interação dá a fisicalidade. Ao mesmo tempo, (a totalidade de todas) as interações coletivas das almas criam a Alma do Homem. (1:09)

(2:28) . salinidade Somos criados pela dimensão da criação de nossa própria força, por nossa própria compreensão e nada mais.

Índice Rápido

A FK pede pela primeira vez aos BC uma doação ou empréstimo que precisa angariar 150.000 Euros até o final do dia para completar este projeto; Eles já angariaram milhões - mas um doador se retirou no último minuto; Isto manterá a FK independente do governo ou fora do controle; É para abrir institutos e trazer a FK para a conscientização internacional - liberação da Tecnologia em público;

Ensinamento:

No ponto da morte o corpo é enterrado, queimado ou descartado - A Alma do Homem fica livre e esquece o corpo; Exemplo de células de carne animal e grãos de arroz - almas espalhadas por todo o mundo ainda ligadas à alma que as criou; Campos Magnéticos das almas estão ligados a tudo - como os ímãs que se movem sobre a mesa; O que acontece com as almas que nós, como humanos, consumimos? ; Temos comido as almas uns dos outros na dimensão da fisicalidade; Nós como humanos não entendemos o que temos feito e como corrigir isto; No momento da morte seremos consumidos também; Podemos trazer uma condição onde a Fisicalidade vem dentro da Alma - como agora a Alma está dentro da Fisicalidade;

Conhecimento que é informação na dimensão do campo Magnético - não tangível, no momento da morte o corpo tem que se tornar como conhecimento - não para ser consumido;

Somos responsáveis pela preservação da Fisicalidade após o ponto de morte - para levá-la à Alma; transmutamos o corpo em energia - ele se torna útil para a elevação de outra alma, para dar vida - então você não precisa morrer - ou o que chamamos - deixar um corpo para trás para apodrecer ou queimar; Você não pode sujar o Universo com a Fisicalidade do homem - como quando você vai para o parque você mesmo limpa depois;

A criação da Alma do Homem e da Alma da Fisicalidade é como um próton e um elétron; a raça humana não é nada além de um átomo glorificado de Hidrogênio com 1 próton e 1 elétron fora; O processo de decadência nuclear é onde a fisicalidade é deixada para trás e o elétron voa livre para criar novas órbitas em si mesmo - novo ciclo de vida;

A situação agora é, a Alma do Homem usa a fisicalidade para se elevar, e então vai embora - ele diz, eu vou porque você não tinha respeito por mim quando eu estava dentro de você como Alma;

Temos que entender e respeitar a fisicalidade, que mesmo após a partida da Alma ela ainda está conectada a ela - nunca pode haver uma separação; é melhor que permaneçamos conectados a ela já que passamos tanto tempo aperfeiçoando ela; Se você entende a transmutação e elevação da Alma da Fisicalidade e da Alma do Homem - você nunca morre - então você vive a vida do Criador - o ciclo de vida do Universo; Como posso preservar a Fisicalidade para me tornar um amante, para servir e não para ser servido - em vez de nos tornarmos um pedaço de lixo ou um pó; Nunca respeitamos a Fisicalidade ou entendemos o que fazer com ela; A razão principal é porque nos envergonhamos dela - um presidente num dia e comida por vermes no dia seguinte;

A fisicalidade do homem é um conjunto de almas, cada célula tem uma alma e coletivamente fez a Alma do Homem; a dimensão da fisicalidade do homem nunca deveria terminar - é o homem que não a entendeu e que tem sujado este planeta por milhares de anos;

Temos que ensinar e elevar a Alma do animal para alcançar o entendimento do nível de sua Alma, e como (transmutar) sua fisicalidade - a Alma do animal é tão inteligente quanto nossa Alma; quando olhamos para este planeta a partir do espaço não vemos pessoas, vemos luzes com conhecimento, porque elas criaram as condições do conhecimento da existência;

Precisamos entender a totalidade e não apenas a individualidade, e o ciclo da vida tem que ser correto em todas as dimensões; fazemos tudo para cuidar de nossa Fisicalidade na vida, exercitamos ela, deixamos ela bonita para os outros admirarem - agora precisamos entender que ela é parte de nós, nós a criamos, e ela nos criou - agora temos que cuidar e dar importância para todas as suas almas;

Quando o homem se eleva e entende como transmutar a Fisicalidade, não haverá prisões para prendê-lo, tribunais para julgá-lo; cemitérios para enterrá-lo ou crematórios para queimá-lo; Será ensinado o conhecimento e a ser um amante, e a essência da criação do outro; Quando se faz um suco não se joga o espremedor fora. Isto é abuso; Você treina a si mesmo como desenvolver isso para ser útil no próximo ciclo;

Nunca soubemos que podemos usar a alma para preservar (a fisicalidade), para que ela possa (permanecer) conosco;

A Alma da Fisicalidade e a Alma do Homem desde o primeiro momento de interação e estabelecimento da primeira (emoção), deve ser inseparável (para o resto do) tempo da criação, e não apenas alguns anos neste planeta;

É preciso entender como intercambiar entre um e outro, para que ambos se tornem o preservador um do outro. Temos um elétron e um próton, a existência do elétron é para manter o próton na posição, e qualquer coisa que vaze para fora como energia, é capturada por ele, e alimentada de volta, para que ambos possam existir.

A vida tem que ser vida por toda a eternidade.

A elevação da Alma do Homem não é apenas para que você seja livre - mas para que você se torne responsável pela preservação da Alma da Fisicalidade, e da fisicalidade, que você aceitou existir dentro; então, será que o homem morreria de alguma doença ou desordem?

Às vezes estamos dentro da alma, e às vezes a alma está dentro de nós. É como quando às vezes bebemos a água, e às vezes nadamos na água.

Torna-se essencial para todos nós compreender a totalidade do processo - então trazemos a mudança para todos nós. Eu fiz o homem à imagem de Mim mesmo.

Temos que respeitar tanto a Alma da Fisicalidade, quanto a fisicalidade. A fisicalidade é uma amalgamação das almas, que por suas interações e trabalho coletivo, criam a Alma da Fisicalidade em interação com o ambiente. Esta interação dá a fisicalidade. Ao mesmo tempo, (a totalidade de todas) as interações coletivas das almas criam a Alma do Homem. (1:09)

Para chegarmos a este ponto, precisamos ser capazes de elevar, não a Alma do Homem ou a Alma da Fisicalidade, mas precisamos elevar a fisicalidade no tempo, posição e lugar de sua manifestação. Temos que elevá-la em todas as dimensões para que ela se torne um belo ser e possa existir em qualquer lugar do Universo.

Não queremos que a Comunidade Universal pense nos seres humanos como aqueles da Terra que, depois de usar sua Fisicalidade despejaram tudo no Universo e depois ir a outro lugar para criar mais. O povo da Terra não tem respeito por sua Fisicalidade, como você espera que eles tenham respeito por sua própria alma;

Não temos escolha, a não ser compreender isto, porque fomos levados ao nível de compreensão da totalidade em todas as dimensões, e não apenas em uma. Vocês são

responsáveis por três entidades, pela Alma do Homem, Alma da Fisicalidade e Fisicalidade; Temos que trazer esta mudança para nós mesmos e para toda a humanidade.

Quando você vai para uma nova dimensão e quer colocar a Alma da Fisicalidade para fora, você criaria um corpo físico, que é um ácido, onde ela arde, e está em dor e sofrimento? Ou você mudaria a força da alma, para que ela mude a força da Alma da Fisicalidade, e criaria um corpo perfeito e belo, de acordo com as condições daquela atmosfera.

Mas nós não tiramos do ambiente o que precisamos, e despejamos o resto. Compartilhamos da Alma, Alma da Fisicalidade com o ambiente, o que permite criar uma bela fisicalidade para desfrutar do ambiente. Mas lembre-se que você é responsável por isso. Você é mais do que responsável por isso, você tem uma obrigação para com isso. Para poder fazer isso, precisamos de compreensão e respeito por todas as 3 dimensões.

Hoje, nós o atingimos duramente (com esta verdade sobre como o Homem está abusando da fisicalidade ao usá-la e depois descartando-a como lixo). (Você tem que entender a totalidade do processo da criação e tornar-se parte dele).

Precisamos ser capazes de trazer essa mudança para nós mesmos, e de transferir o conhecimento de todas as dimensões. É como quando os pedaços de animais, que são almas, estão espalhados por este planeta como alimento. Cada uma dessas almas traz informações da alma para servir, não na dimensão da fisicalidade, mas como campos de energia para a elevação de outras almas.

A partir de hoje, você tomou consciência da transmutação da Fisicalidade, e agora você é responsável por ela. Agora você sabe que não vai acabar no caixão.

Porque você decide, e tem respeito pelo que criou, e pelo que o criou. Você cuidará de sua Fisicalidade. Você joga fora sua mãe ou seu pai, uma vez que tenha sido criado e tenha conseguido ter sucesso? Como você pode fazer isso com seu próprio corpo? Agora você é responsável por todos os níveis do mesmo.

Está claramente escrito nos escritos de Bahulla, não se pode transferir um corpo mais de 1 hora, do ponto de morte até o enterro. Mas ele nunca entendeu realmente, que não deve haver restos do corpo - muito menos uma hora de distância. Ao mesmo tempo, se você morrer em algum lugar no Universo, a terra não deve se tornar um cemitério para toda a raça humana espalhada por todo o universo. Ninguém deve trazer o corpo para casa para enterrá-lo na terra.

A fé Bahai se tornou uma ideologia e não uma religião, porque eles nunca entenderam o processo de criação.

Pela primeira vez, com os ensinamentos de hoje, consideramos que nossa fisicalidade permanecerá como parte de nós, e não passará pelo processo do que chamamos de morte.

Não pode haver morte se soubermos transferir (ou transmutar a Fisicalidade em energia)...

Eu fiquei neste planeta por milhares de anos, e nunca passei pelo processo da morte. Eu apenas transmutei, de um homem velho para uma criança pequena, ou para um recém-nascido, e criei outro ciclo. Sempre a alma permaneceu a mesma, mas a Fisicalidade mudou, de Moisés, para Jesus, para Maomé, para o resto, para o primeiro homem, para outro homem, um nômade, um homem nas montanhas do Himalaia. Tudo é a mesma alma.

É por isso que quando o pai diz, amanhã à noite lhe contarei outra história, porque ele sabe o que planejou para amanhã à noite. Então, amanhã à noite é o que acontece. Ele sabe o que Maomé, Moisés e Jesus prometeram, porque é a mesma alma. Ele nunca deixou a Fisicalidade. Por isso nunca encontraram o corpo de Cristo, porque não havia nenhum, (ele foi transmutado para outro. O homem que falou com Maria no túmulo, era a mesma alma?)

A Páscoa ortodoxa é 7 dias após a Páscoa católica e cristã. Onde está o Cristo nestes 7 dias? Ou é novamente uma criação do homem, para seu próprio ego, para diferentes necessidades.

Pense no que comeu hoje, frango no café da manhã, cordeiro no almoço, bife no jantar. Quantas almas diferentes você já consumiu durante o dia na dimensão da fisicalidade? Então você entende que o homem não precisa consumir. O homem precisa ser um doador e não um tomador. Estamos aqui para servir, e não para ser servido. Não é um trabalho de garçonne. É o serviço para a elevação das almas. Nós não somos um grupo religioso. Somos uma organização científica. Tentamos entender a ciência da criação. A ciência do saber.

Alguém disse ao Sr. Keshe: você fala muito bem, mas não consegue mostrar nada na fisicalidade. Ele disse, mostre-me que você pode fazer isso na Unidade de Aprimoramento. Isto significa que você ainda nem entendeu o processo de criação, sem falar que você precisa ver algo em uma máquina. Coloque um sistema de energia no mercado, então a Fundação Keshe será acreditada. A mágica de Cristo foi sua elevação e transmutação.

Hoje, a mágica não funciona, porque você é muito bem educado. (Ninguém pode criar uma mágica na qual você possa acreditar, portanto você tem que entender o conhecimento e o processo real de como ela funciona. Mas ainda assim, parece mágica).

Não é apenas o homem que recebe uma Unidade de Aprimoramento, os animais e as árvores recebem a mesma elevação através de processos similares, que o homem criará para a elevação de suas almas. Eles alcançarão a mesma elevação que o homem. Os Edifícios de Absorção de CO₂, e os sistemas para a agricultura não são apenas para você ter a melhor colheita, é para iniciar o processo de elevação de todas as almas neste planeta, na dimensão da fisicalidade deles.

Quando o Messias vier, será o paraíso para cada criatura e criação deste planeta. O Messias veio, e é para a elevação de cada existência. Mas nós escondemos a elevação nos sistemas que construímos como os Edifícios de Absorção de CO₂, ou quando se colocam os Gans nos rios e oceanos, a alma dos peixes se eleva. Portanto, agora você pode entender, eu fiz um trabalho muito bom.

A elevação da alma deste planeta trará essa mudança. Não adianta nada quando o homem sabe o que fazer com sua fisicalidade, mas o leão ainda mata, e a planta abre sua boca para capturar uma mosca. O processo do ensino da Fundação Keshe é para trazer a mudança fundamental em todas as dimensões.

Eu o conduzi até aqui, não apenas para mudar sua vida produzindo Gans, e não apenas para aumentar sua colheita, mas para elevá-lo para que você não precise comer a planta. Ela diz: "Estou aqui, você pode irradiar meus campos para si mesmo e absorvê-los sem ter que me consumir".

A planta se torna aquela laranja, e você é a água salgada e os Gans, que você tem contido dentro da pele do homem. Agora você entende como é simples, alguém que conhece o conhecimento da criação, pode guiá-lo através da mudança, e fazer o que é necessário para todas as criaturas deste planeta, e não apenas para o homem.

Este processo vem ocorrendo há bilhões de anos, não vai mudar da noite para o dia. Construiremos os lugares para absorver CO₂, e traremos tecnologias para transformar os campos em matérias, ou pequenas estrelas que chamamos de Gans, e isso mudará a totalidade.

No futuro, como será este planeta, quando as plantas estiverem existindo através de suas almas. As árvores vão entender, que se outra árvore precisa de mais espaço, então eu me encurto um pouco, para deixá-la crescer. Posso me cortar para mostrar minha beleza, sem terminar minha existência. As árvores e os arbustos não fazem isso hoje em dia?

Agora trazemos a essência, da qual não precisamos tirar, mas sim nos tornar o doador. Nós tomaremos o que nos é dado na dimensão da necessidade. Isto é o que significa: "Eu fiz o homem à imagem de Mim mesmo". A imagem da compreensão correta, compartilhando, dando e tirando o que precisamos do ambiente de nossa existência, sem criar uma bagunça ou lixo de nossos corpos em todos os lugares.

A vida não deve começar sobre uma mesa de luxo, e o que eu chamo de "uma descarga de um vaso sanitário". Essa mesa de luxo de comida não deveria existir, nem o sistema onde se tem que puxar a descarga. O homem não entendeu, como o processo inicial da vida deve começar. Nós vemos isto com a mãe, que bebe a água e a converte em leite. A criança é alimentada com o amor da mãe, isto é, naquele leite, que se torna alimento para a nutrição da fisicalidade.

A criação de Mitra e sua filha, é o processo de como a criação da vida do homem tem que ser aqui e em todo o Universo. O Criador é o criador de todos, mas o homem é conversor de alguns. Essa conversão vem pelo nível de compreensão e nada mais.

Nos próximos tempos, a humanidade compreenderá, que a vida significa vida, é para a eternidade.

Até agora, você estava preso a Alma da Fisicalidade. Agora, com o ensinamento da FK, você tomou consciência da existência da Alma do Homem e da Alma da Fisicalidade. E hoje você se tornou mais consciente da Fisicalidade, (que também tem uma alma). Agora você é responsável pelo que faz a Alma da Fisicalidade e a Alma do Homem existir, que é a Fisicalidade, e você não pode simplesmente despejá-la depois de usá-la.

O único cemitério, que será deixado para o corpo do homem, deve estar na memória daqueles que entraram em contato com aquele homem, e nada mais e nada menos. Não deve haver cemitérios ou crematórios. Não deveria haver prisões, para aprisionar essa fisicalidade, nem deveria haver tribunais para julgá-la. Ele tem que ser o juiz de si mesmo e tem que encontrar seu próprio lugar. A Fisicalidade tem que estar aqui por toda a eternidade.

Você não deve despejar sua fisicalidade na Unidade de Aprimoramento, porque você eleva a Alma do Homem. Eu trouxe o conhecimento da existência direito à sua compreensão e emoção de compreensão. Você é responsável por seu dedo, seu cabelo e até mesmo por seu olho. Ao compreender a totalidade, agora nos tornamos responsáveis pela Alma do Homem, Alma da Fisicalidade e pela Fisicalidade, que levou à criação da Alma do Homem. Será que Cristo deixou para trás os restos do seu corpo? Não, então por que nós deveríamos. A transmutação da alma é um (processo) completo, e nada é deixado para trás.

Temos que entender todo o processo da criação, e não apenas a parte que nos convém, ou que pensamos que é para nosso benefício e vantagem. Qual é o próximo passo, e como alcançar o próximo nível de compreensão? Em todas as suas orações você diz "o reino virá", mas o rei é você, e o reino está servindo a Alma do Homem, Alma da Fisicalidade e a Fisicalidade. Vocês não têm outro reino. Você não tem outra responsabilidade, senão cuidar do que o criou e o trouxe a este nível de compreensão.

Não haverá realeza, exceto o homem como rei em todas as três dimensões. Sua Alma da Fisicalidade como rei, Alma do Homem como o mesmo rei, e a Fisicalidade também como o mesmo rei, (todos os 3 são uma totalidade). Nessa dimensão, não há diferença entre a vida do homem físico e o Criador.

Não esqueça, deve haver uma alma, e deve haver uma Alma da Fisicalidade, que sua fisicalidade se tornou a dimensão do universo que vemos e do qual fazemos parte. Você tem a Alma do Criador, e o Alma da Fisicalidade do Criador, que é o Universo, e a manifestação de sua fisicalidade é o homem. Todas elas significam a mesma coisa. Eu fiz

o homem à imagem de Mim mesmo, como eu sou o mesmo em todas as imagens. Não importa se é a Alma do Homem, Alma da Fisicalidade ou a fisicalidade da manifestação.

Precisamos entender mais. Precisamos entender de onde viemos, para onde estamos destinados e como podemos criar as condições para a manifestação. (Precisamos aprender como nos manifestar na dimensão da Alma do Homem, Alma da Fisicalidade ou na Fisicalidade). Aprender como nos manifestarmos em que nível e força queremos operar. Mas sempre temos que ser justos e corretos com todas as três dimensões.

O processo de compreensão da totalidade começa a partir de hoje. Sua responsabilidade já não é mais, apenas por seu filho, marido ou esposa. Agora você é responsável pela corporificação de sua criação e pelo que vai acontecer com ela quando eu for embora. Ou eu vou deixá-la para trás? Como sou responsável por ela, também sou responsável por sua elevação e pelos outros que serão elevados por ela.

Como você quer ser lembrado? Nos livros do homem, que se desgastam e são destruídos? Ou na dimensão da Alma do Homem, ou da Alma da Fisicalidade? Se você for lembrado através da Alma do Homem, você será lembrado por todos os seres criados no Universo. Enquanto que na Alma da Fisicalidade, você é apenas um observador, e participante da Alma do Homem, e da Fisicalidade. Mas se você for lembrado apenas na dimensão da fisicalidade, então um dia você poderá ser um rei com uma coroa, e no dia seguinte na caçamba de lixo, como você será jogado em uma cova de seis pés de profundidade, que não pode ser visto para ser lembrado. O homem precisa de um cemitério, ou pode permanecer na dimensão de sua própria existência?

Espero ter aberto seus olhos para uma nova dimensão. E espero não precisar lhe dar uma Unidade de Aprimoramento para mostrar a prova da tecnologia, ou para fazer algo para mostrar, que pelo menos a coisa funciona. A coisa tem que funcionar dentro de você, dentro da estrutura de sua alma, e de sua Fisicalidade, e de sua vida. Todos estes sistemas estão aqui para elevar aqueles que não conseguiram entender esta parte de si mesmos, do que ensinamos aqui hoje. .

Espero que tenhamos aberto um novo capítulo na compreensão para que isso se torne mais fácil para você entender sua própria existência. Enquanto isso, por favor, apoiem a Fundação para que possamos alcançar esses cento e cinquenta mil euros, para que possamos trazer esta mudança para a dimensão da Fisicalidade para aqueles que não podem trazer a mudança eles mesmos.

Com o tempo, estaremos acrescentando ao conhecimento do homem, mas o homem precisa acrescentar ao seu próprio conhecimento por si mesmo através da dimensão de sua Alma, Alma da Fisicalidade, e Fisicalidade do homem.

Então ele pode se conectar com as outras almas do Universo, e tornar-se parte da Comunidade Universal. Na Comunidade Universal eles não têm encontros internacionais de pessoas, como na Terra. Todos os membros da Comunidade Universal se conectam

entre si através de suas almas. E nós celebramos o tempo todo, não apenas em momentos específicos como na Terra.

Break.

Q: The STP would be the Nano coated plate and the physicality would be the zinc plate?

K- Depends how you look at it. You have the Nano coated material, and the soul of the element is outside. The Nano coating is that STP, and the physicality is the Cu inside. The soul of the thing, which keeps the whole structure together, is the N layer outside controlling the inside. But it is one piece of Cu. It has a length, a dimension.

Q: So, in order to manifest the soul, a wide gap is needed between the two plates, because it has a higher strength order, and so it needs more spaces?

K- (The gap is in the N coating). More or less, yes. If you look at it that way.

R; You might need to make more N layers to give it more field strength to do the job.

>>

Q: Can we use a Gans based, beta decay process, to create a beta voltaic battery with no hazardous side effects of radioactivity? How to produce Gans of K40 and deposit it on a N coated wire?

K- If you can do it, yes. One of the first papers I wrote, I became like Alchemist of the past. I thought, if I let this knowledge go, in the total understanding, and then it can create a problem, that some people will grasp it, and use it to abuse the others.

You have to decipher a lot of my early writings, to understand the code. I understood how to create the Gans of K40.

We have managed to create the heartbeat of the STM with Plasma T.

Do I need the EU, if I can tap into Universal Energy and use it. We don't see people from the UC carrying an EU with them.

On Internet you can see a lot of video where people are having an accident, and then suddenly they appear unharmed. These people are not from the human race. A third of our population are travelers of the U.

Q: What is the STM? Is it a principal star?

K- It's both, it depends on what position. If it is there to be a receiver, it becomes in transition of what we call, the end product. If it is there to be a giver, then yes (it's a star).

But don't forget, while we are giving, we are also receiving. Once you love a partner, you love back, and the more you love, the more you love back. It depends on position, time, place and emotion. The emotion is the most important factor in connection between all three STM, STP and P.

Go back to the very original health teachings. We continuously referred to the emotion. It's the connection, it's the field, which has no dimension, but has connection between

them. The emotion of love, when you love your child, when he is right with you, then it shows us with a cuddle, with a kiss, with the physical interaction. So the emotion has brought that physical dimension into it.

The emotion transfers the knowledge or information from the STM to the STP, from one to the other. The emotion is that carbon in the structure of the connection of the field, of the amino acid (AA).

The Soul has emotion, because the emotional fields strength is the only way it connects itself to the physicality .. There is nothing more important in the cycle of the creation, then the emotion. It is the transfer of the feeling, need, and giving. We created a word for it, but it connects one dimension to another, one strength to another strength.

Q: When we go one level further, to the Soul of the Creator, is it the same way?

K- We came from it, how can it be any different. There is another emotion between the STM and the Soul of the Creator, because it comes from it.

K- Emotion is a connection, how we feel in 2 dimensions. You have an emotion with When you have emotion something is what you love, in the D of the emotion of the STM, it has to have a connection.

We can reach a level that we fall in love with the Creator. Many have done. All the Universal Messengers come from that Source. We are translators of the of the emotion of the Creator, but we're created from the Source. (We are a transformer of the higher strength love of the Creator to the lower strength).

Q: ... If we don't see the AA on the surface, then is it being used by the soul of the creator of this reactor?

K- In a way yes. It's the way the plants work. Sometimes you hardly see any fat on the leaves. In these cases, the AA is floating on the surface of the leaf, and not on the leaf, but they transfer energies. That AA converts energy from the environment to the leaf, and it stays there, in that position. The AA does not need to be attached to the leaf, for the leaf to receive the energies.

>>

Q: What are the uses for the salts collecting on out Cups and reactors?

K- Salts are the essence of the connection of conversion. They have many, many applications.

Salts are intermediaries, and the strength and mixture of the salinity dictates the manifestation of the matter state. Different combinations gives you different types of cells in the body.

The lymph distributes the same energy, (for the creation of all the cells in your body). Your lymph system is a mixture of fields. (Each of the cell types have different salinity).

(The lymph then converts to the particular) element, that is it going to be. So it's a gravitational (G) field.

The biggest question for the world of the creation is, what controls, and what creates the salt itself? What creates that salt? What becomes the initiator of the creation of that salt?

What dictates the salinity for which part of the body, in what strength, which emotion, and direction. And what dictates the change of salinity, that one (cell) becomes the inner, middle, or outer layer of any structure (in the body)?

We are created by the dimension of the creation of our own strength, by our own understanding and no more.

When you speak about salt, try to understand the totality of the concept, how it's made, controlled, and how it's decided. It's like the game of lottery, where the odds of something occurring are millions to one. (Any yet for the body, it happens automatically, and you get it right every time). The cell of your skin changes the same position and color every 28 days. If you scratched or damaged your skin as a child, then 50 years later that same scar is still there. There is a memory of the salinity for that cell and that position, that it recreates it every month and even the changes to that cell.

When the body makes it over and over again, after so many times it becomes part of its structure. its structure. Then you pass it on to your descendents. It might skip your child, but it will show up again with the grandchildren. That's because it remembers the salinity, it's become part of the memory of the gene of the soul RNA.

In principle there is the interaction of M fields, that leads to creation of a gravitational condition, which we call, salt. The body of the man through the interaction of fields, creates the M fields of salt. It doesn't create the salt itself, but its M field (strength), and that creates that particular cell. With what the KS have been taught, they should be able to do it too.

We changed the name of all the Corona Teams to Knowledge Teams. For example, "Keshe Brazil Knowledge Team." This means that you the possess that knowledge. It's yours, it's within your culture and language, because you shared it. It's very hard for others outside the language to understand the essence of the translation. Usually it's just some words they read. Those within the language understand the emotion of what that word means?

In the same way, we have to understand the essence of what it means to have that salt, and to create that field strength of it.

In homeopathy they have the 12 salts of the body, but only 6 of them can be found in the physical condition, (the others are in the field strength of that salt). The discoverer of homeopathy understood the transmutation of the energies, which behave like a salt, but

you cannot actually physically make them. It's an atmospheric condition of this planet. It creates a G field, which allows that (salt to come into).

(The body of the man makes the most complicated cell combinations with the brain, heart and everything else. These are all combinations of the AA and salts, but the level of the salinity in them is as a field strength. But all of this is as a speck of dust when compared to the possibilities in the U, and different dimensions of creation).

You cannot have, what you cannot create. But you need to create the M fields of it. This is why I keep on saying, move away from the matter state, and into the fields. You need to understand how to create the fields of something you want.

This is what you learned in the CO₂ Box. The first thing you create is the field of the C, and not the C itself. That field interacts with the C plasma in the air, together with the presence of the saltwater, and O in the water oxygen, creates the Gans of CO₂. You don't create the CO₂ itself, between the Nano plate and the Zinc plate. You create the condition of the field (of the CO₂).

This is clearly seen when you take the same CO₂ Box, same plates, but change the salinity slightly, and see how the production of Gans changes, and the color is not the same. So, you produced CO₂, but it's on a different level.

This is exactly what happens in your brain. Your brain is made of CO₂, and what we call zinc combination of field energy, which becomes the structure of the body. Why is carbon monoxide gas dangerous and you die from too much exposure to it. It creates a new salinity in the brain, which causes all the communication line connections to get mashed together. This prevents the brain from functioning, and everything shuts down and you die.

Q: How is NaCl salt produced in the sea? Is it because of the sun shining on the water?
K- When you look at the material in the sea, we do not have combination of the elements in the water. What we have is a combination of fields of the element. The interaction of these fields with the environment, creates a condition for the manifestation of the matter state of the elements, such as NaCl salt.

The oceans are filled with microscopic Nano materials, like gold, silver, copper, and whatever. These create fields (of itself) in the water, then in interaction with the fields that are above the water creates the field strength of the salt, then with the presence of the Inertia of the water and of the environment, it gives you that taste of salt. That's why the oceans are salty with mixtures of elements.

There are rivers running all over inside the earth. These are mono environments, in which the water is sweet and not salty. "It means the AA, which created the water, which itself is AA base controlled by it." Does not attract the field strength of the Na and Cl, as the

earth layers have become a filter to it, so that it doesn't materialize in the water below the ground.

In Inner Mongolia, 30 cm below the surface the water is sweet, but the land is too salty to grow anything on it. To correct this you need to change the environment above the land, so that it does not absorb salt, but allows it to pass through. This 30 cm layer of land attracts the salt from the atmosphere above, because of its combination of metals, which dictates the absorption and creation of the salt. It's a M field strength absorption, then due to Inertia it converts it to a grain of salt.

When you dry saltwater from the ocean you convert the saltwater Gans into a matter state, through the Inertia of the water and the environment.

It acts as a filter, the same way different skin colors are created by different salts inside. We have different skin colors, behaviors, because we have different muscle tissues. (The body's salinity is absorbed from environment and converted in the AA).

Salt is not added in the Sea. The sea creates its own salt according to the interactions of the materials within it, which creates a G field of the salt. In parts of the oceans where we get different salts, Mg for example, we get different types fish.

You can do the same in your EU and CO2 Boxes. If you create the M field of a salt, then you can produce that salt.

This is how all that salt starts appearing on top of you Cups of Life, and on the wires. The fields in the box are not matching the atmospheric condition around the wires, which then creates that absorption of the salt. It is extracting salt from the environment, because you created a M field environment. Now your salt in the Cup is not in the matter state anymore.

The AA on the surface of the Cup, doesn't allow the salt M fields into the water. So it hangs above somewhere. What I call your "black hole," meaning the N materials is a good place for it to gather, and that's where you collect it.

Q: Does just the sun shining on the water without any salt, will that also create the M field of the salt?

K- Yes, because sunshine is another dimension of Field Transfer, and if some of the rays of the sun, are the same as the rays you have, of course it does.

Q: What are the activities that we should carry out from now on, so that we are acting in accordance with the ethos of the Universal Community, and being useful to the whole community?

K- I don't know if it's the right time to bring up this subject. Have you reached the point of maturity to understand this part. The children of Mitra will learn to live in both dimensions, both physicality, and the Soul. It's not only breastfeeding the child, but

learning how to absorb the energies of the U, that man lives a physical life, but doesn't depend on it for life.

The children of the man, through the child of Mitra, the birth of life will be different, and over generations man will change. The soul will be trained from the time of birth to receive the energies of the universe through the soul. The soul will be like the water in the cup, and the universe becomes the orange.

There is a technique and technology to do this. Gradually man will become independent of feeding physical life, that he gets feed through his soul. We will transfer energy to the center, and from the center we feed the physicality, and the STP. They'll find peace and the physicality, and STP will become one. The man will become a peaceful creature. This process has already started.

The man of today will not even recognize the next generations of the children of the man, because he will not have a mouth to suckle on the physicality of the energy of the mother. There will be no digestion, but still there will be the love, that binds together the souls of the mother and child.

There are glorious times ahead for human race. You do not even understand what I have given you. You cannot comprehend what gift has been given to mankind. The children of Mitra will never kill.

"If you have ever seen fragments and pieces of the physicality of the creation and the Creator, then that will be the same for the children of Mitra."

Partially you as KS have already started this process without you even knowing. This will take time. Part of the development of this technology for what we are doing now, with collecting and raising the funds, is to create and bring that condition.

The process of creating the children of Mitra will take over the whole of the operation of the mankind's life on this planet.

We will not harvest wheat to eat, we will harvest wheat to enjoy the color of the flowers. We won't need to kill the lamb, to taste it. We have no choice, but to come to understand and to live this process.

Maybe we can add to the beauty of the flowers through giving from our soul to it, to create a new color, without actually genetically modifying it. We do it with the energy of love, care, adoring, and the beauty of wanting to give. This is part of the new cycle for man.

Q: My family member think I am crazy for studying plasma T. What can I do to make their souls understand?

K- You family and children are feeling that way, because is not on television or the Internet. Today in raising funds, we are trying to bring a massive international awareness about the technology.

In a short time, they'll come to worship and adore you, because you understood before they did, because then it will be in the news. We have to change the perception by putting something out in the public, and that will bring the change.

The King of Belgium has spent tens of millions to block KF, through bribery to the Fox News management, to make sure the KF never comes into the light of the public. They've started this in 2012. We suffered for it, but it allowed us to become stronger (inwardly).

In a few months time, when we bring international awareness of the T it will all change. Don't worry about it, I've been there, even with my own children. Just continue to do what is right and be correct in everything. You know it in your soul. You know what you are doing is right, and very soon you'll become the fashion of the day.

Never try to convince, let them convince themselves. If you try to convince, you waste your time. It doesn't mean just because you know the Gans technology you can survive everything, and live forever. But if you understand it at the level of the soul, the yes. But you're not there yet.

Q: How to use the salt that the Cup produces on the wires?

K- Have you created salt of the soul? That's the question. Those salts have to be made immaculately, and very perfectly handled. You never touch these kinds of salts with your bare hand, use gloves, and keep them in an airtight containers. Make sure they don't interact with the matter state.

In the future we'll teach you how to use them. They can be used to make any Cups, this salt is better than from the shops.

Q: You told us that after a shower to say to the AA, "thank you for feeding me." Since then food has become easy to bypass. For 3 days I chewed only on 3 olives, it works perfectly. I am even feeling a weight gain. I feel I can stop totally my food consumption. How to stop breathing, to not kill the AA too ?

K- It goes back to what we did before, to understanding about transformation. If you understand this, the soul of the children of Mitra will not need the breathing system of the body. Our breathing system is only applicable on earth. We're becoming the man of U, and Man of universe there is no oxygen, there is no air to breathe outside.

We just got to wait, to watch our children, or grandchildren who come from the process through the birth of Mitra, structure of life, that they won't need to consume. It's not just the food, we become the feeders of the universe, as much as we are fed by the U.

>>

A long question about if there are some practices to do to bring this about.

K- Bringing of the souls is through the emotion and connecting them to be able to understand it, it's a priority for us about our own creation. We have to test and trial

He tells about the Guru from India who was able to stop eating for 21 days. Mr. Keshe understood exactly how he did it, by changing his posture and gathered different fields. He told him to be honest with his disciples.

The Method:

It's very simple, you can do it too. Sit upright. And move your lung and your stomach in different positions. But try to hold that position for a long time. Wish you want to have water, you're thirsty. Move the breathing rate, move the position of your lung, move slightly your stomach and posture in a very refined way, that you lose the thirst.

Now, you found the gimmick to extract energy from the environment, at the level of the water, because you satisfy the thirst. It's not very hard. These people are paid for days at a time to be under, "I have to be meditating." Rubbish, I'll find you a cheat.

How this time to have the taste of steak. And I have a steak without the steak here. Because I move my intestine a little bit, I change the position. Don't forget the energies of the air in the body of the animal changes to be ?? that steak. Now you are that animal. But now you learn the trick.

If you go a step further, stop breathing. Move the motion of your body in a position, that compensates for the energy, which the blood needs without the lung. You can live without breathing. Physicality of the man, if you understand it, is beautiful. (3:24).

>>

Old people die of pneumonia because their posture shrinks and lungs collapses creating water build up in lungs and they get infections.

Visit to Vatican - storm - freed the mankind from slavery

So, meditating, in what way? Understanding the principle of creation is a different. And you know what happened? People who were present they tell you. The same thing happened when I was invited to the Vatican to meet the Cardinal. The skies opened up, storm beyond your imagination, because I broke, I broke the shackles of slaving man. He could not handle it, He came down and he tried to get me ?? there. But we gave back to what he was trying take.

None of us need to eat or breathe air.

About why men get Parkinson's, right hand trembles, visualize the young wife - becomes real to them ..

Alex of Nigeria, first one to be fed from the fields.

Keshe Foundation has 500 million followers around the world. Nobody can cheat you lot.

Don't forget, if the guy sits upright with little bit twisted to the left, and he's getting the energy of a banana, and tastes something, doesn't mean that works for you. You might have to turn slightly, double right, to get the same taste, because your mixture is different. So you cannot copy.

You walk the fields of oranges, you don't pick an orange. You smell it and without that smell, and you absorb the taste of it, you become that Cup. Anywhere in the universe you can create that orange, and you don't need to get Parkinson's. Because now you recorded it on the STM, (3:30). and not on the RNA or DNA, and this will bring man huge changes. Huge changes will come from understanding of this process.

Learn the knowledge and don't get stuck in hypocrisy.

Q: The STM leaves the body, at the exact moment that he must. But you said, that is beyond our imagination?

K-

K- Go back to the matter state, maybe you understand better. In the matter state, the strength of the fields of a magnet dictates its position. When you put two magnets next to each other, they create a distance gap, what we call, MaGrav - magnetic gravitational field positioning.

If you put a winding around one of the magnets, can do it, if you understand how to do it, and increase the flow of the fields in one of the magnets. You will see maybe the other magnet come slightly closer, or move further. It becomes a trajectory.

Now, your STP becomes that winding, and your Soul becomes the other magnet. But in this case, the STP has given his energy to the soul. So, now the soul is energized, and when the point comes, that the STM energy super passes the blood flow cage, it takes off. In taking off, what happens, the physicality stays behind, but the soul has gone, point of death.

Why most of us die at the old age? If you can keep the circulation of the blood, and the energy levels of your body, at the strength that does not come lower, than controlling the cage of the fields of the soul, you do not die. You can extend your life.

The minute the STM receives more energy as part of the information, emotion, or whatever else, and the cage becomes rusty and weak, the Soul has nothing to hold it, it becomes the point of death. So, our aging is by circulating less blood, feeding the soul more from the STP, and dimension of emotion, and whatever energy. It becomes more

powerful, and it jumps, it creates that, it becomes that bullet to new position. (3:46). Breaks through the weak cage, which is rusty, which is the old age of man, the blood cannot hold, the circulation is not that strong, then you die.

In a way, you created a "soul" shooting star, and you have to see, if it has enough at the point of arrival, that it becomes the source, it becomes the beginning of a new cycle for the soul.

The whole purpose of creation, is to create new essence of creation, which is another star, which is the STM, but not within the physicality of the man, but in another D.

We do not open another church, another castle. We want to make homes for where people will not be a slave. But we elevate the souls of everything in One Nation, which is what a man wants now.

Thank you very much for today. And I hope, I hope we'll have much beautiful news for you in the coming days, as this progress hopefully can be completed today. .. We still need to reach our target.

(:18).

K- ... Today for the first time through the KF work, we've been here for over, live teaching 10 years, and KF over 17 years in establishment. KF has never gone out to ask for donations, or to ask for people to support the KF for a project. People who are close to the KF know we have endeavored to bring a massive change to the work of the KF internationally. This work required huge financing in the background by the KF. We have worked on this 5 or 6 months, the funds have been raised more or less to the absolute limit, a number of Knowledge Seekers (KS) in the background know, they have been solid with us trying to, and we have brought all the finances to the KF to see this project to be completed. This project will bring some hundreds of new locations, (:20). for use of enhancement units (EU), for water treatments cleaning treatments and processing, for space ?? launches, space centers and the rest.

To raise this kind of capital by the KF is impossible, we (would have) had to go to so many different people and wait for years and years. We have reached a point, that we have raised these funds, and now we are in the last leg. We have raised, we literally used all the resources we could do, to raise another 150,000 Euros to complete the process. With the discussion with the team of the KF, we have come to you. There are hundreds of thousands of you listening online, if you donate 10 Euro, or 100, or 1,000 Euro, or put funds as lending to the KF, to be returned to you.

We need to raise this money today. Millions of dollars have been raised and paid for this process to be completed by tomorrow. But we are in a shortfall. If you have access, or you would like to support the KF, we are short just under 150,000 dollars to complete. We would not come to you in this way if we didn't need, and we didn't have to.

Add in Auto transcripts... here to 34 minutes >>>>

You make the donations or you can send 1000, 2000, 10,000, or \$10 as a loan, put it as a donation or a loan to the foundation. And then in the process, we return back the loans, or we take foundation donation to go ahead. We need to raise this money today.

We have done everything around the foundation, those are on the panel in the background. People listen in different channels, know a number of Keshe Foundation top management team, (:22). people have originally formed divestment positions have done a lot of work. To make sure this happens. This was supposed to happen last Monday completed. But due to the lack of a large sum, which suddenly disappeared by somebody who was committed to us, we had to raise it in a short time we raise most of it. It's about 100,000. And we would like to ask you as Knowledge Seekers go on a donation panel, if you can send it directly to the Keshe Foundation Account in Holland, help to bring the check, we have told you what is to come. This is all part of the work of the Keshe Foundation. I put it in in different ways and different meanings. Keeping the technology out of the hands of the governments or the institute's or the people who control it takes a lot of courage takes a lot of work we've done in past years. Now we are in the same position.

MT Keshe 23:06

The funds we have raised will bring those changes without attachment. We signed agreements to this effect. And we need to keep that correct. We need to keep the foundation as one nation be attached to any organization, any government. We need you to be there today. Not tomorrow to help the foundation to be that change. Every month we spend 10s of 1000s All these things you see even keeping this internet going a month cost about 30,000 euro per advantage. When paid year in year out month in month out. We need you to help to donate or to learn to the foundation today. We can bring that change very soon. Waiting that chunk of time will be affected by the others and other conditions. We are there to do a lot of work and that bring a lot of changes. And the capital we have raised we had to pay for it to be done. And it is part of that experience. We pay for it to be done the platform to be set up to be able to do this. I know many of you have access to an open so many analysis to a lot of moments. But you've been here

for 10 years listening or some years we've been listening. You haven't seen our work. If you don't like to pay for something which you don't get by a cup. You will consider what Cup of Life worth and donate to it. Pay if it says 50 Euro 100 Euro pay 10 Euro, it doesn't make any difference, but we had to bring that change and we left it to the last minute. One of our senior people in this part is already moved into Vienna. We are way waiting for the other things to complete and has to be completed today. Because we would have never come to you, as I said, it's one of our people in the background would not have defaulted in what was put here. And is so short that we could not wait without coming to the shortfall was much, much bigger, we have covered with the support of the Knowledge Seekers, and the Keshe Foundation was whatever it was there. Now we need to raise the surface. If you want to pay for one enhance, when you will get to 100, which is for 1 million, we still accept as you get the product, but we need to raise it today. Paint which foundation bank account, as is a NGO is a foundation account and support us put it in the law awarded back, we will return it back to many of you who have supported us this way before, when we need we got to select the people who we need in the Keshe Foundation to support us in the Chromebase. And now, this is the foundation which needs this money to be able to interchange. Knowledge has been free and sharing the knowledge has been free. Now we have to keep the application of the knowledge and technology free as well. And this is what you don't see any obligation a nation works companies, any outside X and Knowledge Seekers as partners or people who run. We want to keep it that way. And we want to bring the knowledge out everything is depending on what we're doing and what we have to do. Huge sum has been made and you will see its operation coming through. Once this is completed. I asked you as Knowledge Seekers support today, we tell you how much we collected in the day. And that will decide if you're going through, we can complete the agreement by tonight. Or we have to step back. We have already committed all the resources of the Keshe Foundation, millions of dollars to get this done. And set up is just hoping that for such a small amount, which wasn't supposed to be, except by the fact one of the medical people who put the funds in for a purpose, and he changed his mind. We raised most of it, we showed 150,000 Euro. And I'll come to all of your knowledge specifically for 10,000 20,000. As a loan, we are not asking for donation, you haven't bought the setup. And if you feel you want to donate to me, if you feel it to be long, the hit alone, and we can complete today.

MT Keshe 27:58

I don't think the foundation will ever come to us for donation or support in this way publicly. With what we set up, foundation will become one of the most powerful structures on its own. Without depending on governments we become this we set it up is to become the bankers of our own finances through technology, and not to establish a government but to establish one nation. We need these funds to be based today.

28:32

And

MT Keshe 28:34

we need to be completed today can make a donation on PayPal, but we prepare you to make a direct transfer because we the PayPal, we have to wait another two days to get it

transferred to our accounts and then transfer it again. So if you make a payment directly to the Holland account as an NGO or your partnership, nonprofit organization, and we can accept you can just put out there alone your \$100 alone your 1000 I donate to \$1 all works. We need to read this today. There's 1000s of you online and we have shared knowledge we have shared everything with you. And we need to complete this as is part of the structure of the setting of information. And more or less you are aware of what is to come we announce more as in the hidden ways, the things to be set up to come and sitting there to come. And we have another day or two weeks with it. And today's our final day we have to meet today to complete. I don't preach and I don't go we need we have to bring the change, to search for color. So solid base for generations to come, but it gives you ambition. Please look what you can do and how Oh, you can do it. But do it today, if you can do it even during the teacher mini under 50,000 rows if it's 1000 people turn up if the dollar is 10,000 20,000 People live on the lights at the moment. Do we need to pay \$1 What 10 pound \$1.50 You just make. I've done everything in my power and the financial part of Keshe Foundation. To bring this position about, we stopped a lot of programs of the Keshe Foundation in China, in Arizona, anybody else to finance this because this is more important. This platform for us is a game changer for the punish the employment backwards to cleaning up the atmosphere, the energy, the space, technology, everything has put a hole in past five months to get this completed, and our bankers new and behind the huge problems our banking system, blocking and stopping investigating how an organization like Keshe Foundation has managed to do such a job. Our bankers are closed everything for us to monitor how No well known organization or shell Foundation has managed to raise a nation's capital as an independent organization, when you do have to be done, when you have to be completed. Thank you very much for it. And I hope, I hope you can help and you can relate and you can blend the Punisher in money for the next few hours that we can get this process completed. Those of you who are in the background, know exactly what you've done and how you helpless and also at the front end back from China know how you have suffered with what they had to do with the stock not the banks and everything else publishes at the moment, he will schedule a central European bank to see how overnight showing Keshe Foundation has made such I thank you for your support. And I take your call and allowing to bring about the church we are not asking you to donate us we ask them to learn this stuff by this we determined to win a competition. Thank you very much. And I hope we get a response by those of you who have the funds to be able to do it. Just understand there is a need and there's a type of need and the need for the permission to bring the changes today. Come back once again, we keep an eye on the monitoring of the fun receive and we'll see what you have taken from the rounds brought you back to us to be commended much you have to make the donations on the screen or you go to the Keshe Foundation donation bottle cash management account in Holland as a NGO is there the power is there we prepare you to send direct things that paper will take us time but it creates a lot of delays which we don't have Thank you very much going back

Rick Crammond 33:28

product I was just wanted to mention that if people do have trouble with some people do have trouble with the direct bank transfers and there is a donate button in the upper left corner of that web page and when you click on that then it takes you to to the ability to

use PayPal and or with a credit card so just that the option is there but you have to actually click on that small donate button in order to access all thank you and as I see there's people already have sent their donation Danielle in the chat here mentions donation sent so you're getting action already at least mr. cash.

MT Keshe 34:20

Thank you very much. We need to raise 150,000 euro to pay 10 cents for the teaching of 10 years per session that only might have water. Thank you very much. As I said we never do never come back. But this is so vital. For change of direction of course in Keshe Foundation be the way it's your foundations for urine, your caretakers Going back to the teacher.

Teaching starts here .>>

This is so vital for change of course and direction of the KF. Either way it's your Foundation, it's what you run, we are caretakers.

Teachings start

What happens to Physicality of Man after point of Death

Coming back to the teaching. .. done by KF Australia. Most of the videos .. bring back the connection between what we call, the Soul of the Man (STM) and the physicality (P) of the man. What happens to the body of the man in the dimension (D) of P? What do we get, why and how do we amalgamate the fields, the processes, the understandings of life after death in the physical condition.

We bury it, we burn it, (:36). we do all sorts of things with it, and a lot of things happens to it. We put it in a coffin. We do the same, we kill animals, we consume the cells of the body, each one has a soul. We interact with the D, that central control is not there, but the part of the P, the Soul of the Physicality (STP) is there, because the amalgamation of the work of it together, created the STP.

We send an animal into a slaughter house in Australia, it gets cut up in different pieces, and it's frozen, one part goes to the US, .. Europe, .. Africa, and the P of the one body spreads across this planet.

But as we said, in the D of the magnets, once you establish a M field, then every magnet has connection with all the other magnets, because when you put a magnet in the center, everything moves.

These parts, these sections still in a direct way, have a connection to the soul, which lead to their creation, and lead to their containment of that soul, till the whole thing was imparted ?? and ?? alive.

We as beings, (:38). of consuming packages of energy, one of us will get one part in Australia, another one of us gets the same animal's part in South Africa, and another one of us in New York, and somebody else in Moscow. What happened to it?

We have shared the P of one, but we have connected to the soul of one, too. If this something you cannot imagine. Go back to the grain of rice, go back to a grain of wheat, we cultivate this grain. We harvest 50 to 60 grains from it, and in the process of the industrialization, each one of these grains ends up in one part of the world. It's no difference, if it is the animal, or grain or the seed.

Then it comes to one point. What happens to the souls that we consume? The soul of the grain, soul of the cells of the body of the animal, that we consumed. Soul of the totality of the human race, which consumes it. Then what happens with the P of the body of the man, when we burn it, (:40). when we bury it, or whatever else we do with it. What happens with the worm, which feeds on the body of the man. What happens to the energy of the fields, when you burn that body in a fire. You change the D of the P when you burn, but do you , what happens to the souls which made that body?

Then you come to one point to understand. We have been eating from each others souls, and adding to each others souls, in all D of the P, in every D, we are all inside and outside each other. We are all connected, we feed and we feed through it, and with it in the coming time.

We need to understand the need for one point, that do we need to consume, do we need to kill to consume. Doesn't matter if you call yourselves vegan, or vegetarian, I am a meat eater, I only breath air. We still end a life to take something from it, to extend another life, for a small period of time in the process of the creation. .. Where does man go with this? Where do we bring ourselves to be, and to understand? (:42). (Rick WL should always be on the panelists, she is head of KF. ..)

In the process of understanding, in the process of evolving the science, the knowledge, then it comes to understand what is the problem with us? What is the problem with us, that in the coming time, in the process of .. understanding, we have not understood what we have done, what we do, what is the process? What is sitting in there, and how we can change this? Where do we go, where have we set?

Where do we sit with this problem, with the whole structure of field transfer, energy transfer, with understanding of the totality. (:44). With being there to bring that change, that we don't need to consume. Because we think we consume, and that's it. But don't forget, at the time of death, we become to be consumed. Goes back into part of the teaching. "We care where we go, but how we feed our children, what children we create in the D of P and D of soul."

But we have to care for our body after the point of death. It's not just something we bury in the ground. It's not just something that it burns, and it becomes part of another D of energy. When you die, do you want your body to be transmuted, and transformed into

energy, by everybody else can take from it. Or to become a rotted things, and maybe they ?? scare man (like a ghost).

With the new understanding in the D of the work of the STM, man can decide in what way his P will take, to be given, to be spread, to be part of his knowledge, part of his strength, into strength field of the U, that it comes useful to enhance, to be the reason for operating, elevating another soul.

The condition of the teaching of today, is not just what your soul does. What we said we can bring a condition, that super passes D of P, (:46). and P becomes within the soul. As now the soul is within the P in the brain of the man. Then you decide what energies are not needed, that can as energy to dissipate, in the D of U, that it becomes useful, becomes applicable for the others to live with and be part of.

We share knowledge which is more or less information in D of M field. It has no tangibility. So what is given, and we use it. The body .. at the point of death has to become like a knowledge. Not to be consumed, but to be taken for what, who needs it at the time.

You are responsible for Physicality after death

The teaching of KF is not about what happens to your soul, and when the soul can take over the body and be free it. You become responsible for preservation of the P within the soul when you take over. When the body comes to the point of transmutation, you become responsible for it. You are responsible for it.

Now you understand where the teaching has come, and how it sits. Now you are responsible for what is released by that P, that it becomes a useful, for elevating the soul of another, to love, to give it love. Then you don't need to die, you don't need to leave the P behind to rot, to be burned.

Then you understand the point of what we call, death, cannot exist. (:48). man will live forever, not for a meager 50 or 60, 100 or 10 years on this planet. This is what we are responsible for. This is what we become responsible for, making sure the P at the point of departure of one D, leaves ?? in that citizens, be it the animal, be it the planet, be it another D, become useful for it to elevate its soul.

Where still the D of P can be created when the soul allows the P to manifest itself in D of environmental field strength. You care about your children. Now with the knowledge you have from today, you have to care what P fields you leave behind. You cannot go into the park, have fun and then throw litter and rubbish all over the park, and go, just because you've been there. This is what you do with your body today. Bye, bye soul is gone, litter the body on the planet.

This is where the understanding of the process of transmutation and elevation of the fields does not matter in the dimension of the plasma, you call it STP, (:50). or STM

comes into it. Where one is electron, and one is proton, and one is, as you know, we say in the world of nuclear physics, that one has 2,000 times more whatever, compared to weight, or mass, or size of. And then you can reverse, when you change the mass to the size, and you get a bigger mass, and then they can collectively, field force balance each other.

When I understood the process of the creation of the STP and STM, to me was fantastic as a nuclear physicist. One was proton and one was electron. Transmutation, inter-fusion of one into the other, to take over, became very simple.

We are as human race nothing but an atom. A glorified atom of hydrogen with one proton inside, and one electron outside. Or one electron inside, cocooned inside the proton. Or an electron, which is ready to be released by what we call, principal division, fundamental elements, to what we call, the electron to be released, and then it becomes an atom.

We are the hidden atom, where our electron, which is our soul is within, then being outside. In a way we are that fundamental element, till we allow, to recreate the condition to release, that electron, (:52). to go through that what we call, nuclear decay. Then, we leave the physicality behind, and the electron becomes free to fly, and create new orbits in itself, and a new cycle.

We cared about our body how it's dressed, how it's performed, how it's looked outside, immaculate hair cut, shoes totally clean. But we do not care what happened to it, when that electron flies out, and division comes, and you're left with a pile of mess, you call it the human remains.

We don't care what happened to it, because déjà vu, does not exist in that D. So bye, bye, I made, I used your physicality to elevate myself, now I go, because you had no respect for me when I was inside you as a soul. You care about your children. Now with what knowledge you have, you have to care about your physicality, you cannot litter the universe (U) and the planet with that remains, for somebody else to clean up the park.

It's not the process of what we collect in the park, we put it in a dumpster, and we just take it to a (disposal) plant, we burn it, or make a fertilizer out of it. Or it goes in the coffin, and it becomes something else, somebody else.

We are still connected to P after death

We have to understand and to respect the condition of that physicality, not in its D of the soul, but in its D of itself upon departure, or separation, or by understanding that there can never be a separation. Does not matter, (:54). which part of it we send, which part of the world you send it, which part of the U, you're still connected, and you respect it, and you keep it to be there. It cannot be food one day and a manure the other. This is not expect, and respect for the physicality, which you took so long to train it, to elevate it, to bring its soul to perfection.

Death can never come if you understand Transmutation

Then it matters for man not to have, to come to the position of, after death, because death can never happen. If you understand the transmutation and elevation of the STP or the STM. Then you live the life of the Creator, then you live the life cycle of the U.

Next time, when you look at your body in a physical condition, you look at its beauty as a young man, or woman in the bathtub, or you enjoy its dimension in the ocean swimming, and showing his beauty, or as an old man walking with a stick in the dimension of the streets, or in a wheelchair. You have to understand what is going to be the future of this physicality.

How can I preserve it to become a lover, to serve and not to be served? How can I be there forever to give. Not for a while, and then become a litter or a dust. (:56).

When you look at the physicality of the man up to now, you had no respect for. If you're Jewish and ?? and it's within your power, you don't spend money on the dead. If you're a Muslim, you do all the hullabaloo and celebration of, and mourning of. If you're a Christian, you go to the church. And either way, you dump it on the ground, it's gone there is nothing to do. And we are so good at, that we say we put it out of sight, we bury it.

Because we could never understand what we do with it. We did not respect it. We did not allow it to learn the process of the interaction with its soul, that it will never get to that position. Most of the reasons we bury our bodies is, we are ashamed of what has come, to become, a president one minute, eaten by the rats, or the fox, or the worms in the coffins, the next day.

We have to bring to understand, that the physicality of the Man is a collection of the souls. You cared about your soul, you cared about the Soul of Physicality, you have to care about every cell, that has made, that has a soul, the collective STM. Then it comes to one point, if you understand this, would we become one piece in America, one piece in Africa, one piece in Australia, one piece in China?

Or we become the radiant lamps, (:58). of the lights that, what we have in the way, deciphered through the cycle of life, become energy to the others to take what they need from. Man's D of P should never finish. Man's D of P should never end. It's man who has not understood it, and he has littered this planet for thousands of years.

Also elevate soul of animals

We have to teach this to the animal kingdom by elevation of the soul and understanding. You don't take animals to school and university and give them a degree, professor cat, or doctor dog. We elevate the Soul of the animal, that reaches the understanding level soul, in how to look after the physicality, because that soul is as intelligent as our soul.

We said before, when we look from distance on this planet, we don't see the soul of the King, the president, a farmer, a dog or cat. You see lights, knowledgeable lights, because they have created conditions of knowledge of existence, and the condition of this planet, in a condition of the universe, in a condition of the galaxy.

Next time when you see a Hearst going down the road with the body, next time you pass a cemetery, just think, "what's going to happen to that body? Do I want mine to be in that position?" Steal, rob and go when the time comes, (1:00). or give it to what I need, I gathered what I need from it, I escape with it as a soul, and I leave the P in the hand of whatever needs to be done.

We come to understand, the cycle of life has to preserve, to be correct in all dimensions, and in all physical conditions. It has to be in the process of understanding the totality, and not the individuality. It has to be understood, that we need to bring the condition, that we have, we should, and we care about our physical life. You take it to the park for a run to look good, to be perfect, to be everything that you want it to be, when you're looked by another admirer, six packs, hair done perfect, dressed to the polished nails and everything else.

What about when you leave that physicality? You are responsible for it. It's part of you, you created it, and it created you. Now, you cared about your souls. Now you understand the creation of the soul, you're responsible for the physicality, after what you call, "if you cannot control the departure," (1:02). separation, understanding of the totality.

Then, as we said, as man elevates his soul, and understands, we will have no prisons, we will have no courts. And if man understands this, will have no cemeteries, no crematoriums, and nothing else, because we have nowhere to bury this. Because it respects, I think it does what it needs, and gives what it needs. You can direct it to be the knowledge to one, to be the knowledge another, to be a lover to one, and to be essence of creation to the other, but the same soul, the same physicality.

You are responsible for it, you are born to create the soul from it. But when you made it, you have a new, and must have responsibility for, what is made. When you create a juice from using a machine. Do you throw the machine away because you've got your juice? This is the abuse.

This is then we look for "Fountain of Youth," everlasting life. If you understood, and in teachings in the past, I explained many times, you are responsible for it. Now you're responsible to understand the litter you leave behind, it should not be there. When you go to the park, you're well trained, you're mannered, you collect your rubbish you take it with you, you don't leave it in there. How come you leave your body on this planet and pull out.

You train yourself what to do, how to spend, how to develop it, to be useful in the next cycle. (1:04). And you decide about it. When you pack up your food pack, you decide

where the plastic cup goes, in which bin, and where the paper goes, in which bin, and which bin will take the leftover of the food. But you don't respect, and consider what you're doing with your physical life. Once you said, bye, bye in the physical dimension, where it should not be there, because you said bye, bye.

Because we never knew we can use the soul to preserve it, to be with us.

The STP and STM from the moment of interaction, establishment of the first motion (emotion ??), should be inseparable from the time of the creation, not to 10, 20, 50 years on this planet. You are responsible for it. You have to understand how to do it, how to manage it, how to interchange between one and other, that both become the preserver of the other. We have an electron and a proton, the existence of the electron is to keep the proton in position, and anything that leaks out as energy is captured by it, that it can feed it back, that both can exist.

But we have not learned this about the life of the man. We leave it behind as a litter, that it should not be. Where it's been taken so much to build it, to put it in such a beautiful order, that it has to become the process of life, the process of change, the process of elevation of the other souls, through its fields and interactions of its fields.

Life has to be life for eternity.

Now, (1:06). it comes to the point of understanding, comes to the point of the teaching, that we have to, we must to, and we have the obligation to understand this. Would you allow, when your soul expands to bring in the D of physicality, or physicality to die within it? Would you shoot yourself in the foot, and want to run a marathon. This is the marathon of the life of the universe.

Then we understand, then we come to understanding the position of elevation of the Soul of Man, is not just for you to be free. You become responsible for preservation of the Soul of Physicality, and the physicality, which you have accepted to exist within.

Then, would ever man die of any diseases, or any disorder? It's very much, sometimes we drink the water, sometimes we swim in the water. Sometimes we are within the soul, and sometimes the soul is within us. It's us who has to decide, which one is the pleasure, or time, for what purpose. It becomes essential for all of us to understand this process. It becomes essential for all of us to be part of this process, (1:08). to understand the totality, to be part of that totality, which brings the change to all of us. I have made the man in the image of Myself. I have managed to bring that change, to become that process of change, to be in understanding the totality of the change.

STM - STP - Physicality

We have to have respect both for the soul, the Soul of Physicality, and physicality, because the physicality is an amalgamation of the souls, which their interaction, and collection of the work, creates the dimension of the Soul of Physicality in interaction with

the D of environment, gives it P. Then at the same time, the collective soul interaction, creates the Soul of the Man. Where does man go? Where does man sits with this knowledge? (1:10).

What we need to do to bring this change - elevate the P

Where do we understand what we need to do, to get to this point? We need to be able to elevate, not the STM, not the STP of the Man, but the P of the man in the D of the time, position and place of its manifestation. But in all D it becomes that beautiful being. Does not matter where, on Planet Zeus, on the earth, or anywhere else.

Where we see the beauty of it. Where in the dimension of Universal Community, we don't become, "oh, these are from Planet Earth," when they finished with the physicality, they dump it, litter it around the universe, and they go somewhere else, to see what they can create somewhere else. They have no respect for their physicality, how do you expect (them) to have respect with their own soul?

Now you understand, you are part of the Universal Community, and maybe in your village you could spit, you throw the litter on the corner, on the dusty street, and that was it, the wind will take it, and dust will cover the mess. Now you have moved to a city, to a place where you cannot spit on the street, and you cannot throw your litter on the street and walk away. You are responsible for what you do with the dimension physicality of the man.

Responsible for STM - STP - Physicality

We need to understand this, we have no choice. (1:12). We've been, we've been brought to the level of understanding of the totality in all dimensions, and not only in one. Both the Soul, the STP, and the physicality of the man. You are responsible for three entities, not just for one. Feed it, and enjoy it, and dump it, litter it when I'm gone. It's the totality of the knowledge, understanding, and it's the totality of what we call, comprehension of the total need for understanding of the totality.

We have to bring that change to man. We have to bring the change for ourselves. We are not doing it for somebody else. It's our body, we created it. What do you do when you see your arm, cut off, it's on the floor? You walk away, "oh, I used it, it's there, I'll make another one. Or do you pick it up, you're try to stick it together, you try to get it to work. You try to get it to function in all dimensions.

It's us who has to understand the work of the physicality, the work of the STP, and the work of the STM. (1:14). When you go to a new dimension and you want to put the STP out, would you create a physical body, which is an acid, and it burns and is in pain, and is suffering? Or would you change the strength of the soul, that it changes the strength of the STP, that you create the body in that atmosphere, and in that condition that it's perfection and beauty.

But we don't take from the environment what we need, and dump the rest. We share, you share from the soul, STP with the environment, that allows you to create that beautiful physicality to enjoy the environment. You are responsible for it.

You are more than responsible for it. You have an obligation to it. You have to understand where we are, and how we live this physical life. We become that process, we become that understanding, we become that respect in all three dimensions. And then we understand how much, to what level, which way we are sitting, (1:16). and being able to create that D in all three.

Now, we had hit hard (with this truth about P), and you have to understand it, and you have to be able to be part of it.

We need to be able to bring that change to ourselves, we need to bring that to ourselves, to be able to transfer the knowledge from all dimensions, does not matter if you're in South Africa, in Moscow, in London, New York or anywhere else.

Where the pieces of the animal, for you, which is spread across the planet, carries information to division of the soul to serve, not in the dimension of physicality, but as energy fields up elevation of other souls.

From today I am not going to end up in coffin

It is what you have become aware of. As I always said, you are responsible for it from today. Because, you know from today I am not going to end up in that coffin. I'm never going to be there, I'm never going to want that pile of wood to be burned, to become dust and ashes. Because I decide, I have respect for what I've created, and what has created me. (1:18). And it'll never be in that pile of wood. And it'll never be in that box to be a coffin, because I look after it. Do you dump your mother or your father, once you're created and managed to become successful, and dump them, I've got nothing to do with them, even they've been my creator. How can you do that with your body?

Now you are responsible for all levels of it. Now that you know, you cannot litter the universe with the physicality of the Man, once the man goes. It's in the writing of Bahulla clearly, you cannot transfer a body more than 1 hour, from the point of death to the burial. Because he never understood, that body should never exist, to be one hour. At the same time, if you die in planet Zeus, should not earth become the cemetery of all the human race across the universe, that they bring the body home to bury.

Today's 21st of April, it's what we call the first ?? , the beginning of the Bahai New Year. But have they understood at all, what they are talking about? Or this is another, what I call, amalgamation of nothingness. Nothingness changed with what they call, the new Messenger, because the same problems carried out. It became ideology, not a religion. You have to understand, you cannot become ideology. You have to understand the process of creation. (1:20).

That you don't become the litter, that wherever man dies in physical dimension in the universe, send them back home, burial ground is earth. We won't have enough space on this planet to bury our dead. Because now they come from all over the universe. It's not just if you die in Tehran, and you're American, we send the body back to New York. How much body, do you want to bring from across the universe back to earth, to make it a burial ground? Worse burial ground, then man ever known. It should not be a burial ground, Earth should be the beauty as it is, where everyone comes to enjoy, not to dump the litter of the physicality of the man across the U.

The teaching of today is for you for the first time to consider what next, with my physical dimension. Where if you understood it, there is no, never, next, because it's always there and it's part of. There shall be no death, there cannot be death if you know how to transfer.

I stayed on this planet thousands of years - never died

I stayed on this planet for thousands of years, never died. I just transmuted, from an old man to a young child, to a new born, another cycle, and then another cycle. The soul is the same, change of the P. From the Moses, to Jesus, to Mohammad, to the rest, to the first man, to another man. (1:22). A nomad, a man in the mountains of Himalaya. All is the same soul.

That's why when the father says, wait till tomorrow night, I'll tell you another story, because he said the story tonight, he knows what's inside (for) the next night. He uses the same inclination, and the knowledge of the last night, to tell you the new story of what's going to be the next night. What Mohammed promised, what Moses promised, what Jesus promised, is the same soul. He never dumped the P. The same as you never found the body of Christ, because there wasn't a P.

Last week was a Christian Catholic Easter, and this Sunday is the Orthodox, what happened to the soul of the Christ, in these two Sundays? Seven days in the land of "no-mans." Or was it again a creation of man, for his own ego, for different needs.

Ask where your soul has been, what process has it gone through. We saw this in ?? How come it elevates? Today you had a chicken in the morning for breakfast, or chicken nugget's, at lunch time you had the lamb roast for lunch, and dinner you had the steak with rice, and you had bread with your lunch. You had whatever potatoes in the morning, in different shapes. How many different souls have you consumed, (1:24). during the day in the D of physicality?

Then you understand man does not need to consume. Man needs to be a giver and not a taker. The logo of the Keshe Foundation is very clear. We are here to serve, and not to be served. It's not a waitress job. It's the service for the elevation of the souls. We are not a religious group. We are not, god knows, whatever. We are a scientific organization. We try to understand the science of creation. The science of knowing.

As a guy told me, you talk very good, but you can't show anything in physicality. Show me you can do it in the EU. It means you haven't even understood the process of the creation, let alone you need a machine to be seen, to be shown. Put an energy system in the market, then the Keshe Foundation will be believed. Magic of Christ was his elevation and transmutation.

Too well educated for magic - need to understand

There is no magic, because you are so well educated, that no one can create your magic, you have to understand, what is the real process, that it looks like magic. The reason of creating all these processes, even when we ask for a donation, and sending setting up the team, it's through the process of cleaning up the process. Elevating the soul of the water, creation of other things, we can bring that processes.

It's not just the man who gets an enhancement machine, it's the animal and the tree gets the same elevation through the process, that the man creates for the elevation their soul, then they reach the same elevation as the man. The process of setting up the CO2 absorption processes (CO2 Buildings), the process of setting the Enhancement Units for farming, (1:26). is not for you to have the better harvest, because you always look at your own pocket. It's that to start the process of creation of elevating, what we are responsible for on this planet, in a dimension of their physicality.

That, as I said, when the Messiah comes, it's heaven for every creature and creation. Messiah has come, and it's for the elevation of every existence. But we hide it in the container of the water, we hide it in elevation of absorption of CO2, you put a water in the rivers and we see, that the fish get elevated in the D of the soul. So now you can understand, I've done a very good job.

The elevation of the soul of this planet will bring that change. It's no use when the man knows what to do with his physicality, but the lion still kills, and the plant opens its mouth to capture a fly. The process of the teaching of Keshe Foundation is to bring the fundamental change in all D.

Then you understand how, as I said, I've taken you for a walk, not only changing your life by producing Gans's, but developing the new enhancement center for capture of CO2, and then using it as a fertilizer to enhance the level of the plant, not for your harvest, but in a way, that you don't need to eat me, I am here, you can radiate my fields to yourself and absorb it without ever consuming me. (1:28).

I become that orange and you're the water, the saltwater and the Gans's, which you have contained within the skin of the man. Now you understand how simple, somebody who knows the knowledge of creation, can walk you through to do, what is needed to be done by, for the whole creatures of this planet, and not just for man.

This process has been going on for billions, it won't change overnight. We build the places to absorb the CO₂, we come with the technologies to change the fields into matters into the small stars we call it, the Gans's, to change the totality.

The biggest question for mankind will be, what would in the future this planet, would look like? When the plants are there through their souls. The trees are there to understand, if I'm here, then that tree there, needs more space. So I shortened myself a little bit, let him grow, I can always exist. How I can cut myself, that it shows its beauty, and not my existence. Don't the trees do that, don't the shrubs do that nowadays.

Now we bring that essence, that you don't need to take from, but they become the giver, by taking what is given to them, in the D of the need. Then you understand what it means, I made my image of myself. ?? image of the Soul and the Physicality, but the image of correct understanding, and sharing, and giving, (1:30). and taking what it needs from the environment of our existence, without messing up and littering about. It's mine or the others which are consumed.

Life should not be starting on a table of luxury, and what I call, a flush of a toilet. That table of luxury of food should not exist, nor the system, that you have to flush. In so many ways, what man has not understood, is that the initial process of life, when you see the mother drinks the water, converts it to milk, feeds the child with a love of mother, in that milk. That milk becomes food for the nourishment of P of that child to grow.

The process of the creation of Mitra and the daughter, is the process, that how the life of the man has to be. How the process of the creation for man across the universe has to be. As we always said, the Creator is the creator of all, the man is converters. That conversion comes by the level of understanding and no more.

In the coming time, mankind have come to understand, life means life, from now to eternity. (1:32). From now to the point of understanding the whole understanding. We need to understand this process, we have to understand this process. We have to become aware of the totality, not part of it.

Up to now, till the beginning of the teaching of the Keshe Foundation, you were locked with the STP, you call it the, whatever and whatever. Now you became aware of the ?? soul, the STM and STP. Now, you're responsible for what makes the Soul of Physicality, and the Soul of Man to exist. We cannot use it and then dump it.

The only cemetery left for the body of the man, should be in the memory of those who became in touch with that man, and nothing more, and nothing less. There should be no cemeteries, there should be no crematories, there should be no where, that we have people we imprison that physicality, and there should be nowhere where we judge it, as he has to be judged by itself. He has to find his own place, and he has to be there for eternity.

Not to dump P in the EU

Now you thought you traveled, (1:34) to dimension of the Soul of Man in an Enhancement Unit? Somebody will be outside knocking on the door, "excuse me sir, what are you going to do with the physical part you've left in enhancement (unit)." What are you going to do with the next guy wants to get in. There is not a dumping ground. We haven't opened in new cemetery inside the EU, for you to elevate your soul, and leave the physicality behind. Oh, just dig it, dump it somewhere else, as it suits you.

I brought the knowledge of existence, right to your understanding, right to your emotion of understanding you're responsible for that finger, you're responsible for the hair, and that eye.

(Sorry about the interruption, I just been informed that in past half an hour we have received over 15,000 Euros, as donation, towards the 150,000, through the bank and a PayPal operation. We need more to be able to achieve.)

In understanding the totality, now we become responsible for, not only our soul, (1:36). not only the Soul of Physicality, but for the physicality itself, which led to the creation of it. Did Christ leave a litter behind? So, why should we. Going through the transmutation was complete, transmutation of the soul and no litter left behind.

We have to understand the whole process, the full process of the creation, and not just the part that it suits us, and is to our benefit, and is in our advantage to be. What do we do in the next step? What do we achieve in the next level of understanding? What are we responsible for? As in all your prayers you say, "the kingdom will come," but the king is you, and kingdom is serving of the soul, STP, and physicality of the man. You have no other kingdom. You have no other responsibility, except for what has created you, and what has brought you to this level of understanding. (1:38).

There shall be no kingship, except king of the man in all three D, as your STP as a king, as the STM is the same king, and the physicality of the Man has to be the same king, that it's one which has ?? the totality, there is no difference in that D with the life of the physical man and the Creator in that D.

Don't forget, there must be a soul, and there must be a Soul of Physicality, that its physicality has become the dimension of the universe we see, and we are part of it. So in a way, the soul of the Creator, the soul of the physicality of the Creator to be the universe, and the manifestation of its physicality to be the man. They all mean the same thing. I made Man in the image of Myself, as I am the same in all images. Doesn't matter the soul, the STP, or the physicality of the manifestation.

We need to understand more, where we come from, and where we are destined for, and how do we create that condition of what we call, manifestation. (1:40). To be manifested in the D of the soul. To be manifested in the dimension of the physicality, or be manifested in the dimension of STP. Which level, which strength do you want to operate. But at all time, we have to be fair and correct with all three dimensions.

Now the process of what I call, totality, understanding of the totality, starts from today. Your responsibility is not anymore, your child, your husband or your wife. Your responsibility is the embodiment of your creation, what is going to happen to it, when I'm gone? Or am I leaving it behind, as I'm responsible for it. And if we come responsible for it, I am responsible for its elevation, and I'm responsible for elevation of the others who get elevated by it.

STP is just observer

How do you want to be remembered? In the books of the man, who weather and get destroyed, in the dimension of the Soul of Physicality of the Man, (1:42). or in the D of the STM? Whereby the soul, you will be remembered by all created beings in the U. But in the Soul of Physicality, you are just observer, and participator in the STM, and the P. Or just in D of physicality, a king and a crown one minute, and in a dumpster the second, as you're dumped in a deeper six foot, what I call, grave, that he cannot be seen to remember, "I did not even respect it, it's away and it's gone."

As I said, once, to one of the world leaders, how many kings and how many queens, and how many, many, many souls in D of physicality have lived, embedded, and we don't even know where they're burial ground is. Does man need a burial ground, does not matter on Earth, in space, or in D of your own existence.

I hope I opened your eyes to a new dimension. I hope I opened your eyes to understand, that I don't need to give you an EU to show the proof of the technology. I don't need to make something to show at least the thing works. The thing has to work within you, within the structure of your soul, and your P, and your life. The rest is there to elevate those who have not managed to understand that part. (1:44).

Thank you for today, I hope we opened a new chapter in understanding, and I hope it becomes easier for you to understand your own existence. We go through a break and the come back to answer any questions. Meanwhile please support the Foundation that we can reach that hundred and fifty thousand, that we can bring that change for the D of P for those who cannot bring a change for themselves.

In time, we will be adding to the knowledge of the man, but man needs to add to his own knowledge by himself through the dimension of his soul, ?? STP, and P of the man, and connects with the other souls of the U, and becomes as part of Universal Community. We will not have international gathering of people from all nations. So in the Universal Community, we have a connection of all the souls together, that they make that UC. We celebrate all the time, and not in the specific times.

Thank you very much, Rick, and take us through a break and then we come back. (1:46).

Proofed to here >> continue on

>>> **BREAK** >>> 429 KSW April 21, 2022 (1:52).

K- ... We hope we can share more knowledge, in a way understanding the Totality. We have just been informed donations are continuously coming in, and we .. have just passed about 10% of what need. They're looking for large donations, or money to be granted the permission to return, on a completion, and completion of this work.

We ask not to be generous, we ask to bring that change. Help us to bring that change. And that change comes through staying independent, as we've done for 20 years. We have bowed to no government, and to no structure. We have kept the whole thing the same way for the new expansion and changes in the KF. (1:54).
Any questions that we can expand on?

Q: .. Is my train of thought correct, if I relate the soul of the Gans of plasma, the STP, to the Nano coated plate and wire, and physicality to the zinc plate?

K- What do you mean?

Q: .. The STP would be the Nano coated plate and the physicality would be the zinc plate, is that a way to relate them?

K- Depends how you look at it. You see, if you look at it, when we look at a Nano coated material, the soul of the element is outside. The Nano coating is that STP, (1:56). and the physicality is the Cu inside. .. Because that soul of the thing, which keeps the whole structure together, in the Nano (N) layer, in outside controlling the inside, but is at one piece, with that piece of Cu. It has a length, it has a dimension.

R; Exactly. He goes on to say, if so does that mean in order to manifest the soul, a wide gap is needed between the two plates? Because it has a higher strength order, and so more spaces are needed.

R: But I think maybe the gap is in the N coating? is where the where that was ..

K- More or less, yes. If you look at it that way. Yes. If you look at it that way, yes.

R; We were talking even yesterday in the Plasma Group about the N coating and the way you talked about making N coating for example, the inside of a reactor, where it might take a month of steady N coating to provide the numbers of layers, to give the field strength to be able to do the job, basically.

K- Yeah

R: So in that case, a wider gap or more space is needed for that job, you might say?

K- It's one of the options. It's one of the possibilities, yes. It's one way of looking at it

Any other question

Q: Stephanie ... the Italian group asked me, to ask you how to make, to ask you to make a clear announcement, about how to make the donations, which is the direct way for the foundation to have money directly to explain again, the fast way to donate.

K- Send it through a bank to the Keshe Foundation in Holland. The account is on the screen. You just because, you're in Italy, you just need to put the amount, Keshe Foundation, and the IBN number, which is an L, that's all you need to do. It's a three step process for European banking. Because we are working on a ?? and straightforward name, account number and the amount. It says, just put if you are lending, or you're donating to a foundation.

We need to raise this funds today to be able to take to the next step, independent foundation for our work, that we stay independent.
So we'll be able to bring that change, both for environment, for space technology and everything else.

Any other question?

Q: .. (2:00). Can we use a Gans based, beta decay process, to create a beta voltaic battery with no hazardous side effects of radioactivity? How to produce Gans of K40 and deposit it on a N coated wire?

K- If you can do it, yes. One of the first papers I wrote, I became like Alchemist of the past. I thought, if I let this knowledge go, in the total understanding, and then it can create a problem, that some people will grasp it, and use it to abuse the others.

I start writing the abbreviations with the sequence, that I knew what it is. Like instead of putting potassium, K, I put Ca, but I knew this is for the next one. So you cannot decipher. If you read some of the very, very first papers I've written. It needs deciphering, because I use what they call, a coding system, because I didn't want nobody to abuse no one, if they understand this and understood it, if they were clever enough they will not do this.

And a chemist picked it up, he said Mr. Keshe, do you know chemistry? I said, yes. He said you in this paper you have put Ca. He said, it means you don't understand anything about chemistry. And I looked at him, he was a Belgium. He was the first guy, when you look at that blue reactor, (2;02). which is in the exhibition somewhere we've shown it before. He was the guy who gave us the facility to build that first reactor.

He said you're a nuclear physicist, but you don't understand chemistry, you put here calcium. I looked at him and I said, do you think I'm that simple to give you the full lot, that then you can abuse it, because his target was to build the energy system. He said, I cannot work with somebody who doesn't understand chemistry, and calcium does not have these properties. But look at the calcium, potassium and the others. How you look, if you put, you could decipher a lot of my writings, early writings, needs deciphering, understanding the code. Yes, you say you want to use potassium 40. I understood how to

create that K40. Do you need with the knowledge you have, to create potassium 40, or the Gans of it.

We can create the heartbeat of the STM

With the new knowledge, I was looking at the video from the research center last night, we have managed to create the heartbeat of the STM. (2:04). In that process, goes back to knowledge extended knowledge of the totality, how to create that heartbeat? You create the heartbeat of the man with electronics. We have created the heartbeat of the Soul of Man with plasma technology. Did we use any K40? Did we need to create such a condition? Did we need to go that far, now that the knowledge has come so forward?

When you sit in Enhancement Unit, I'm not interested in your leg being short, I'm not interested if your eye twitches, I'm not interested if you came here with a cancer. What I'm interested, I deal with the boss, where the boss decides what is needed to be done with the soldiers. Does the Soul of the Man, has decided I'll have that leg shorter, that I get enough attention, that I can absorb the soul. Now I'm elevated? Does my leg increases by two inches and I'm not short anymore. Or I have replaced the interaction, interaction from the beginning to the end, by elevation of the soul.

On the other hand, do I need a Enhancement Unit to reach that, if I can tap into Universal energy and do it. We don't see people from the U, the Universal Community walking around with EU in the back of their pocket, or the back of their, towing along do we? (2:06).

Videos - people have accident - disappear and suddenly reappear - UC

Than if you understand this, watch some of the videos you'll see. You'll see one second a person, then one second you don't see. How can you elevate your soul rapidly to cover your physicality, when it's in a time of danger, and then bring it in the P, and then walk away.

Now we have the technology we can see the recording of theses things. Some people say what happens. No, it shows directly, he's not one of us, us as a human race. Go on the internet, there are many videos like this. Now we have the capability to do, to record. Then you understand exactly what I've been teaching. Scan the internet for, there are a few pictures from the traffic cameras. You see a car, an accident, there is no guy, and (suddenly) there is a guy gets up and walks away, as nothing happened.

Then you understand, when I tell you, a third of our population are travelers of the universe. Now you can check it, you can see it. But how do they manage to do it instantly, their soul is aware of the physical damage, coverts into covering the physicality, and then back again with P. Exactly what the Christ did, resurrection.

How can they do it? How can we just say it's a magic on the videos. How many times can it be a magic. If there's so many magic's, can be recorded in so many different situations,

then by god, now you understand, we've been amongst you longer than you think, we've become you, that you don't really recognize us (2:08).

Just go on the internet. And then does this guy carry a quarter of potassium 40, does he need it, or his soul coming from another position in the universe, and in interaction with STP has taken the shape of the physical life on this planet, which is the body of the man. If he decided to be in the shape of the man. Maybe some of them are in the shape of a tree, and some of them are happy to be a lion or a cat.

So, the dimension it's understanding it, not just trying to create, that's as important. Understand the knowledge, the application and implication of the knowledge, and then we see how fast we can move to the next level.

Any other questions?

Q: .. Regarding this fundraising effort, what did the possible to redirect the funds from Keshe Coin to this for this purpose?

K- Yes, you can use, but there is no problem. (2:10). But we go through the process of the present situation. We can add those to it, there is no problem. You can donate your coin, or say my coin to be used, then can be returned back, it's no problem. You have to keep a record of all the coins you have donated for, and tell us which one you want to lend, because there are many people who bought numbers of these coins

Q: So in order to redirect, let's say the funds from the cash coins, or what is the, is there a procedure?

K- No you just write to the KF, I want my coins to be a donation, or to be used for this purpose and returned, and you date it, which coin which date.

Thank you very much. The process of raising we're reaching nearly 20,000 at the moment. We need to go further to complete the process. If you have you can do, but you think I don't want to give it away as donation, or they just lend it and the foundation will return it to you back.

Any other question

Q: ... about the donation or lending is there an option by way the purchase of the Keshe Coins, (2:12). for an immediate transfer, or as a temporary deposit?

K- It's the same, you decide. You can buy the coin, but say use the funds for it, as a donation.

We have raised millions to get this facility sorted, it's not pennies. It's the process, which we told you during the past few months, what is to come, what is to come, because we work on that basis?

Any other question.

Q: Nikolai ..

K- I hope we didn't shock you that you're responsible for your own detail.

Q: Only a little bit. My question today is, what is the STM? Is it a principal star?

K- It's both, it depends on what position. If it there to be the receiver, it becomes in transition of what we call, the end product. If it is there to become the giver, yes.

But don't forget in all D, the Soul of Physicality, the Soul of Man, and the physicality of the man, we play both, while we are giving, we take. Once you love a partner, you love back, and the more you love, the more you love back. (2:14). It depends on position, time, place and emotion. It's the emotion, which is the most important factor in connection between all three.

Go back to the very original health teachings. We continuously referred to the emotion. It's the connection, it's the field, which has no dimension, but has connection between them. The emotion of love, when you love your child, when he is right with you, then it shows us with a cuddle, with a kiss, with the physical interaction. So the emotion has brought that physical dimension into it.

It's the same with the Soul of Man and Soul of Physicality of the man. The emotion, which is transfers the dimension of the knowledge, or information from one to the other. Nobody hands a book, this is the, this is a, I don't have the receipt. This is the receipt for me, I gave you 10 Love and I gave you 15 loveless. It's that what we call, the emotion, is that carbon in the structure of the connection of the field of the man, in amino acid (AA).

This is why if you go to all the teachings, I said, the emotion of the Soul, the emotion of physicality. Soul has emotion, because that's the only way through that field of strength, we call it emotion, that connects itself to the physicality, that the P to be the same emotion, connects itself to the physical dimension of the man.

There is nothing more important in the cycle of the creation, then the emotion. What we call emotion, (2:16). is the transfer of the feeling, transfer of need, transfer of giving. We created a word, emotion for it. But in the fact, it's connection between one dimension, to another, one strength to another strength.

If you put 240 volt supply with 120 volt supply, together it explodes. But if you put a transformer inside, you play with it, you can feed both into the system. That system is emotion, both can coexist, both can come and go. You put a plug at 240 volts, you put a transformer, and then you get 110 volts out. The color transformer in the cycle of the life, or what you call it, emotion, because it fits to the two, it communicates within the two. You put a booster, you change to 110 to 220, it's the same. That again, you call it, emotion. Man has chosen too many words, for the same thing, but in principle, in different levels, that we understand it, which side goes, then we call it, a transformer to do with electric, when it's got emotion, it comes to D of physicality, but it's the same thing. It's the same dimension.

Q: When we go one level further, the Soul of the Creator, is it the same, the same way?

K- We came from it, how can it be any different. There is another emotion between the Soul of Man and the Soul of the Creator. It comes from it, the STM comes from the STP, comes ?? from the man ?? ?? no ?? attachment to the physical body, (2:18). We are again, our soul is that part of one cell of the physical body, which then again interacts, and connects and the rest of it.

Q: So, when we feel the emotion ..

K- Emotion is a connection, how we feel in 2 dimensions. When you have emotion something is what you love, in the D of the emotion of the STM, it has to have a connection. What do you love. So physicality must have recognized it, and made a connection with it. Otherwise your Soul of Physicality cannot just walk around with the lover all the time, ?? with the one you love.

How do you love, fall in love in the level of the Soul, and not in the level of physicality, what happens then? Soul mate, soul lovers, understanding connection with.

Do we reach to the level, that we create a fields, which we are capable to do, in the level of falling in love with the Creator? Yes, we can. Many have done. All the, what we call, universal Messengers come from that source. We are translators of the of the emotion of the Creator, but we're created from the source. Which is we are a part of ?? its submission (or emission ??), understanding of the creation. (2:20). We are another as I call it, you call, it transformer in the work. You are used to 220 volts to 110, we are which is from 1000 volts to 220.

Q: Oh many, many, many Thank you. You've opened the doors again for me. Thank you.

Any other question.

Q: .. if Mr. Keshe would like to update us on the condition of the Core Team member.

K- Still the same, it takes time. We have another Core member in problem at the moment. We hope, it's 2 of them now. We hope they both come through it. It comes, we're all aging, we're all aging in D of physicality. He is one of the youngest core members. It will take process and the thing is, he has to accept that change. We understand the reason he's got there, but he himself has to understand the elevation of the soul to accept that position. We have now another Knowledge Seekers with the same problems in past few weeks.

Any other questions? (2:22).

Q: ... Please help me to understand what Mr. Keshe says about amino acids. In a video 103 One Nation One Planet from February 4, 2020. Mr. Keshe says, in the vessel you don't see amino acids, because the soul of the Creator is going up, you feed on the energy of amino acids to lift up the soul. So the question is, did I understand correctly, that if we don't see the amino acid on the surface, then that amino acid is being used by the soul of the creator of this reactor?

K- If .. yes, in a way yes. It's the way the plants work. You hardly see the fat on the leaves. You hardly see .. there are some plants, that if you stand back, you see the amino

acid floating on the surface of the leaf, but they're not on the leaf. They transfer energies. They are one or two, what do you call, plants, especially in Africa, you can see sometimes.

It's very much like you see the mirage, you see it on the surface of some of the leaves. Which means, the AA does not need, does not have the strength to attach, but it has the strength to be within the vicinity. It's like another Nano (N) layer, not sitting on top of each other, (2:24). but being distance, but connected in feeding the field. And then once you create that AA you don't need to create the next one. That AA there becomes converter of the energy from the environment to the leaf, and stays there in that position.

Most of the plants when you look, the amino acid layer is very close, you think it's the leaf. You touch it, you feel the oiliness. But in some plants is so strong, that it stays off it. You see by the shimmer on the leaf. So you do not need to be attached to it, you become the receiver of energies.

Any other question.

More about Salts

Q: .. another question about the use of salts from the electrodes in the reactor. At a conference Mr. Keshe said, that salt is used to contain snake venom, are there other uses for the salts?

K- Salts are the essence of the connection of conversion, yes. Yes they have, and it has many, many, many, many applications. (2:26). It has many, many. It has numerous applications.

Salts are intermediaries, and the salinity, and the strength of that salinity, the mixture of that salinity, dictates the manifestation of the matter state. If you have, let's say, salt of magnesium, salt of potassium (K), salt of calcium (Ca), and salts of Sodium (Na). One is one, one is three, one is two .. 1, 2, 3, and 4 let's call it. This combination will give you the cell of the inner part of the heart in a wall. Now, the first one becomes 1.1, but the rest of them stay (the same). Now, this combination fits to be the inner cell of the kidney.

Even the lymph distributes the same energy, equal to your everyone. Your lymph system is a mixture of fields. When it comes to the salinity, converts to the element, which it's going to be. So it's a gravitational (G) field.

And then the biggest question comes in the world of the creation, what controls, what creates the salt itself? What creates that salt? What becomes the initiator of the creation of that salt? (2:28).

Then it comes to the point of, in which part of the body, in which strength, which emotion, which direction dictates the salinity, and change of salinity, that one becomes the middle, and outer layer, and inner layer of any structure?

We are created by the dimension of the creation of our own strength, by our own understanding and no more.

So, when you speak about the salt, try to understand the totality of the concept, and how it's made, and how it's controlled, and how it's decided.

I always said, if you go into the game of lottery, they give you 49 numbers and you choose 7. You need about 14 to 18 million combinations, (2:30). to get it right. What happens now if you change it to eight numbers to get right. What happens now, if you have to get 10 of 49 right to win the jackpot, and you got to get it right every time. The cell of your skin changes in the same position every 28 days, the same color, the same thing. If you had a scratch on it, which was damaged when you were a child, it's still there, "look I had this scar when I was a baby, I'm 50 and it's still there."

So it has to have the memory of the salinity for that cell, in that position to manifest in the dimension of its P, and the change. If the body makes it over, so many times, it becomes part of its structure. Your child will have the same spot on the same place. Your child might miss it, but your grandchild, "Oh look, he's got the same spot in the same place as a dad or grandpa." Yes, because it remembers the salinity, it's become part of the memory of the gene of the soul RNA.

Then, we understand more and more, about the process of the creation. Then we have the understanding of the totality of the creation. (2:32). Then we need that understanding to become in principle, to understand how even, interaction of M fields leads to creation of a gravitational condition, which we call it, a salt.

If the body of the man through the interaction of fields can create, M fields of the salt, it doesn't create the salt, it creates M field of the salt, that creates that cell. With the present knowledge, that the Knowledge Seekers have, you should be able to do it too.

Translating Emotion of Language

If you noticed we changed the name of all the "Corona Teams" to Knowledge of a nation. "Keshe Brazil Knowledge Team," which means you possess that knowledge now. It's yours, It's within your culture, it's within your language, because you shared it. British cannot read the Portuguese, but they have a translator. But would they get the essence of the translation, when they translate it? Or is it just some words to read?

Where the Brazilians when they read the same, they understand the emotion of what that word means? We speak the language, we don't understand the language. 99% of the people that I come across, they tell me, you are Englishmen, because in a very small way, living in England for such a long time. I understand the culture of the language, not like a German, (2:34). I don't read the words in the book of the language.

In one occasion, the word "bastard" was used, and the mother, because speaking English, thinking she understood everything says, "my child is not a bastard. Why do you call my

child a bastard?" Then excuse me Madame, this means, is not correct in language, doesn't mean he has no father, or is illegitimate. But this is what it says in the dictionary.

We have to understand the essence, it's the same you have to understand the essence of what it means to have that salt, what it means to create the strength. You don't need to have the salt, but you have the strength of the salt.

Homeopathy Salts G field not physical

In homeopathic there are six salts, which they say they cannot find. It's there, but is defined by the developer of the technology of homeopathy, he talks about 12 Salts of the body, 6 or 7 of them, we know the others are explained in a very ?? near. But in fact, he understood the transmutation of the energies, which behave like a salt, but you cannot actually physically make them. It's an atmospheric condition of this planet. But they did it, they are there, but they cannot be converted into physical matter, that we see, potassium salt, or magnesium salt. This is what creates a lot of problem with homeopathy. It creates a G field, which allows that to become into.

If you look at the combination of the amino acids and the salt, and the level of the salinity in them, as a field strength. (2:36). The body of the man with all the cells it has, compared to what is availability, is nothing. We can make the most complicated, this body of the man, with all these cells in it, with combination of the skin, the heart, the brain, everything, is a speck of dust, to what is possible to make as a creation in the universe, in another dimension of field strength. What you cannot create, you cannot have. But in another D we can create different strength salts and varieties of it, with ?? ?? you get a different kind of features, more sophisticated, more elaborate.

But you need to create the fields of it. This is what Knowledge Seekers have to understand. This is what the Knowledge Seekers need to become aware, that we, as what we call, the process of the understanding, come to understand more in the whole process of creation.

This is what I keep on saying, move away from the matter state, move into the fields, because the fields, then you understand. You create as a first thing in this (CO2) Box, the field of the carbon, not the carbon. Where that field interacts with the carbon plasma in the air, with the presence of the salinity of the salt creates, with the water oxygen, the Gans of CO2. You don't create the CO2. Between the plates with the Nano layers, and the Zinc plate, (2:38). you create the condition of the field.

This was very clear, you take the same box, the same plates, put them different, and change your salinity slightly and see how your production changes. See the color of the Gans's are not the same. So, you produce the CO2, but on a different level.

This is exactly what happens in your brain. Your brain is made of CO2, and what we call zinc combination of field energy, becomes the structure of the body ?? . Why does (Carbon) monoxide gas is dangerous to life of the man? If you get caught in a state of

monoxide you die, why? What does that field strength, creates in the brain cells of the man. It creates a new salinity, which connects all the things together, everything gets mashed up, communication gets everywhere, body cannot function, it shuts down, and you die. Now we understand the process.

You get CO₂, or you get carbon monoxide, and then we are in big problem, why? Because the amino acid of the brain has ?? both, but in the right combination, that C monoxide fits into the connection, and the gravity of the brain of the Man, and wallah. All gets synced into one, no communication and you die. Because it creates a different salt level by changing, inside the brain, and the structure of the connection. (2:40).

Any other question?

Q: .. They're asking how the sodium chloride are produced in the sea? Is that because of the sunshine on the water?

K- Explain what you're asking?

Q: We just don't want to know how the sodium chloride is produced in the sea?

K- What is the sodium chloride? Rick, would you like to bring it up on Wiki?

Q: The food salt .

K- I know, I know, I know. You see, if you look at your Gans boxes

What is it, what do we symbolize it by. When you look at this material, in the sea, we do not have combination of the elements. We have a combination of fields of the element, (2:42). that the interaction of the fields with the environment, creates a condition of the creation of the matter state of the elements, Sodium or chloride.

If you look at it, we all know, we all been there. And if we look at something very fundamental, where we have in the what we call, work of the systems, where we have direct interaction of the fields of the Earth, or the environment. I'm going to go somewhere with this. It's a beautiful question, actually beautiful, because this might answer a lot of things to you.

You ask how is it produced? When you have the oceans, and with the microscopic Nano materials, which are in the ocean, the gold, the silver, the copper, the whatever could be, creates the fields in the water, with the interaction of the fields above, creates what we call, the salt, the field strength of the salt, that with the presence of the Inertia, (2:44). of the water, and the environment, gives you that taste of salt. That's why the oceans are salty. Because these are mixtures of the elements in the ocean, have created that condition, to create the salt mix. You can go from one ocean to another, taste is still different, even (though it is) salty. But now we come to something else.

We have earth, and we have a running river inside. Mono environment from where it comes. We dig a well and tap into it, and it's sweet (water). There's not much salt in it. So what it means, and this repeats everywhere around the world, that's why we go to the springs. Wherever you go, you'll find sweet water, you drink from the springs. Very few springs are salty, if they come from the source in themselves based on them.

What does this mean? It means the amino acids, which created the water, which itself is amino acid base controlled by it. Does not attract the field strength of what is the sodium and chloride, as the Earth layers have become a filter to it.

WL do you remember when we went to Inner Mongolia, and the Chinese government wants to get the salty land changed, instead of all calc and salt on the land. Are you there?

Q: yes, yes. (2:46).

K- Do you remember that what they said 30 - 40 centimeters below the surface, the water is sweet, but the land is salty. It's the same process, the land absorbs that salt, which in the sea becomes part of the water. You need to change the environment above the land, that this layer of land does not absorb salt, and allows the salt to go. As the water does not carry that salt, it goes to a lower level. That's why we created that process, that we said, with the with the Chinese authorities in Inner Mongolia when we were there.

This filter of land, this layer of land, in that 30 centimeter, does the separation of the salt, which comes from the atmosphere. So it's the combination of the metals in the land, which dictates the absorption and creation of the salt, which salt. It's a M field strength absorption. Then through to Inertia, that converts it to a grain of salt. If you dry it. That's why you have a sea salt, because you have converted the Gans into a matter state, through the Inertia of the water, and the environment. You have been there, we've seen this in Inner Mongolia.

So it's the filtering. It's the way the color of skin creates different salts inside. We have a different skin color, we have different behavior, because we have different muscle tissues. You're Chinese, (2:48). one is the European, because your salt salinity is connected by bodies, absorbed from environment and converted in the AA.

The sea does not add salt into it. The sea creates its own salt according to the interaction of the materials, which are available in it, and that creates a G field of the salt, in interaction with what is, on the ?? surface of the ocean, and what is within the ocean, that creates the salinity of ?? what. In some parts of the oceans, we get the magnesium salt more than the others. We get different fish, we get different understanding, and creation.

You can do the same in your Enhancement Unit. You can do the same in your CO2 Boxes. You create a field of the salt, and you can produce a salt of the K, Na, Ca anything you like. If you create the condition of the M field of the Chloride you get the same. Then you create salt.

You do this, if many of you looked at the wires, sometimes above your Gans production you see these salts. They stick to your wire. We collect it in the lab, in the factory. The fields in the box is not matching, for the atmospheric condition around the wires, creates that absorption of the salt, extraction of the salt from the environment. You put 10 grams of salt in your box, (2:50). but you find half a kilo of salt on your wires. Because you created a M field environment. Now your salt in the box is not in the matter state anymore.

The salt you added into the box, due to the Nano (N) material you put in, now is in a different environment. It's a Gans, it's a M field of the salt. This M field, the way you absorbed the CO₂ and amino acid, now absorbs the salt in the environment. But the situation and condition of the AA on the surface doesn't allow it. So it's hanging above somewhere, and your "black hole," what I call, N materials is a good place for it to gather, and you collect salt there, instead of bringing it into the water. Because you created the field, but the field become effective Inertia, at the point of your wires hanging. Just have a look at your systems, when you're producing Gans's, after a while you see a lot of salt everywhere. You say , I put 10 grams of salt in there, I'm collecting half a kilo, so where did it come from?

Any other question.

Q: .. Another question is related to this. If the sunshine shines on the water without any salt, can that also create the salt M field?

K- What do you mean?

Q: I mean, if the water doesn't have and salt inside it, if the sunshine (just shines on it), like we have the sunshine also. (2:52). But can that also create the salt M and G field?

K- Yes, because sunshine is another dimension of Field Transfer, and if some of the rays of the sun, are the same as the rays you have, of course it does. It's added, but it's at the strength of the salt. It's very simple. You can do, you can bring that change in.

(If I can break through here? We just received the 10,000 donation from one of the Knowledge Seekers. Thank you very much, this helps us great, and hopefully, we reach that 150,000 by the end of teaching, if the Knowledge Seekers be generous enough to support what we are trying to do.)

Any other question?

We have past 35,000 Euro collection at the moment.

... (2:54).

Q: .. my name is Jefferson .. from Brazil.

Knowing that in order to be part of the Universal Community, we cannot take the life of any being, and also knowing that most human activities directly, or indirectly take the life of some being. That is if we manufacture furniture for example, it takes a life of trees. If we work with agriculture and livestock to provide food, and we take the life of vegetables and animals. If we work with mining, we destroy the land and mountains. What are the activities that we should carry out from now on, so that we are acting in accordance with the ethos of the Universal Community, and being useful to the whole community?

K- It is. I don't know if it's the right time to bring this subject up, or have you reached the point of maturity to understand this part. The children of Mitra will learn to live in both dimensions, both physicality, and the soul. We have to learn the way not only to breastfeed the child, (2:56). that it takes the D of P, but bring the dimension to the child,

that the soul receives the energies of the universe, that he learns to live in the D of the physical life of the man, but not depending on the life of the man.

The children of the man, through the child of Mitra, the birth of life will be different, and over generations will change. Where the soul is trained from the outset of the birth, to receive energies of the universe, through the soul. Where the soul becomes that water, and the universe becomes the orange.

There is a technique and technology to do this, where gradually man will become independent of feeding physical life, that he gets feed through his soul. In a way, we transfer energy to the center, and from the center we feed the physicality, and the STP. They find peace. The physicality, and STP become one, and man becomes a peaceful creature.

This process has already started. As I said back in a few teachings before, the next generations of the children of the man will not even be recognized by the man himself. He does not have that mouth to suckle on the physicality of the energy of the mother, and with it there is no digestion, but still there is a love, (2:58). that binds to the soul of the mother and child.

There are glorious times ahead of human race. You do not even understand what I have given you. You cannot comprehend what gift has been given to mankind. The children of Mitra will never kill ???. Part of the teaching of today was that, if you understood.

If you have ever seen fragments and pieces of the physicality of the creation and the Creator, then that will be the same for the children of Mitra. We have already started this process, and partially you Knowledge Seekers have already started it, without you even knowing. This will take time. A part of the development of this technology for what we are doing now, with collecting and raising the funds, is to create and bring that condition. (3:00).

The process of creating the children of Mitra to reach that point, that they can live in both dimensions, but have to accommodate gradually to become in a position of Universal Community not to kill, and not to consume, will take over the whole of the operation of the mankind's life on this planet. And with it, will bring many changes.

We will not harvest wheat to eat, we harvest wheat to enjoy the color of the flowers when it's time for it. The children of the man will not be what we've seen today, and what we see today. We enjoy the beauty of them, and not the, what we call, by taking life.

Years ago, I used to make sure in April, May I fly as many times as I could, over the beautiful country of Holland. Around this time is when all the tulips come up. And the what we call, Dutch farmers make a beautiful scenery of these variety, a sea of colors of tulips, and you can walk in it. You don't take it. They grow it for its onion, or ?? sage, and the rest of it. (3:02). But the beauty creates, what will be the next generation for mankind. And we will enjoy the beauty without consuming, without destroying. We

remember the beauty of the walking through the fields of the tulips of Holland, in our memory, without actually creating to destroy, to have that.

We don't need to taste the lamb, to kill the lamb. I used to do this a lot, and it was a pleasure. It's one of the most beautiful things, which happens. It touches your soul, it touches your emotion, especially when you fly low level, and you enjoy the variety of the color, the beauty of the creation.

This is the process, which many of us will come to understand, will come to. We have no choice, but to come to live with, and in that process, we will come to understand a lot of things. A lot of what I call, understanding of beauties of the creation, without destroying the beauties.

Maybe we can add to the elevation, to the beauty of the what I call, the flowers. Maybe with addition of our soul to it, we will create a new color, without actually genetically modifying, with the energy of love, care, adoring, and the beauty you want to give. This is part of the new cycle for man. (3:04). This is a part of the cycle, or totality of conversion of energies to what I call, acceptance of the what we call, totality. We need to understand fields transformation, not matter state interactions.

Any other question?

Q: ... since I started studying plasma science and trying to take this knowledge to my family members, they started to see me as crazy. They started pulling away from me and leaving me isolated. My kids these days get annoyed when I talk about plasma and Gans, and one of them hasn't talked to me since last year, because I tried to convince him not to inoculate himself, but he wouldn't listen. I'm afraid these substances have affected their brains. What can I do to make their souls understand, that I try to pass this knowledge on to them, because I love them so much, and I just want to protect them. ...

K- The processes your children, are in that process, your family are in that process, because is not on television. Because it's not on the Internet the way it should be. Part of this process that we are doing today, in raising funds, (3:06). is to bring a massive international awareness about the technology.

In a short time, they'll come to you, to worship you, adore you for what you understood, and they didn't, because it's in the news. The process we started is not just for factories, it's not just for building things. A huge part of what we do, will be international awareness of the technology, and that process. Because you have to understand, they go Keshe Foundation, and somewhere down the line, they come across a pedophile report of the nation of Belgium. "Oh, we can't be there." What is in the news, what it changes, when it brings what it's supposed to. It's there.

I was talking to Armand last night over dinner. And he said, Mehran, we have to change the perception, we have to put something out to bring the change. Then people will believe us, then we'll see the changes. And you don't put something substantial out to do

this. You have to do this, because then people understand. Part of this will go that way. Because we need to create international awareness about the technology.

Then in that time, you become a student, they know more than you, because they studied more, they find more. Then they say, you won't be outsider, you won't be an outcast. Because Belgium's made sure we don't go into Fox. If you can get yourself into Fox, you're foxed in. (3:08). Belgium's paid huge amount of money. King of Belgium has spent millions, tens of millions to block, paid bribery to the management of this organization, that Keshe Foundation never comes into light, since 2012. Since the meeting with the Peter ?? Parker. We suffered for it, but they allowed us to become stronger.

In a few months time you will see that, Papa, Uncle, you are worshipped, you understood before us. Because it's in the news and you're fashion. You were earlier in fashion than they were, and then they can see, and do things with it.

In a couple of years, you don't know You don't know anything, because the new modern plasma technology is something else. Don't worry about it. I've been there, even with my own children. Just be there, just doing what is right, and everything in the correct way. They'll come. It's part of what we are doing today - is this. International awareness with the Keshe Foundation Space Technology. Don't worry about it. You know it in your soul. You know what you do is right, what you have is right, you'll become the fashion of the day, very soon.

Any other question.

R: I think you'll find convincing a total stranger is easier, than trying to convince your own friends.

K- Never try to convince, let them convince themselves. If you try to convince, you waste your time, they buy it. You see, the processes we all die. (3:10). We all live in a physical dimension. We all get sicknesses. And doesn't mean just because you know Gans technology you can survive everything, and you will be forever. If you understood the Gans T at the level of the soul, yes. But you're not there yet. So we have that problem, till you become, till you're aware, till it is done, yes. Then we are.

Any other question

Q; .. How to use the salt that the cup produces.? And another question .. what do we do with the salts created by the Cup of Man the cups are almost closed off on the top because of the salt?

K- Have you created salt of the soul? That's the question. And those salts have to be immaculate, very perfectly handled, you never touch these kinds of salts with your bare hand. Use gloves, hold them in an airtight condition, and keep them in environment, that can bring the condition of ... no interaction with matter state.

In the future we'll teach you how to use them. When you make the Gans, if you keep these Gans's, these salts, (3:12). when you make your next Cup of Man, or Cup of Life you use these salts, not the salt you take from the shops.

Q: Hassan . . . since you told us after a shower to say, "thank you for feeding me," food has become easy to bypass. I tried three days with three olives, just to chew and it works perfect. I am even feeling a weight gain, with very less food intake, and I feel I can stop totally my food consumption. What I want to know is how to bypass the breathing, and stop the killing of the amino acid too ?

K- It goes back to the same position, as what we did before, as what we done before. Then it goes to understanding the process, then it goes to understand the whole caboodle about transformation. (3:14). Then if you understand this, what we said about the soul of the children of Mitra, they take fields, do they need the breathing system. Our breathing system is only applicable on earth. We're becoming the man of U, and Man of universe there is no oxygen, there is no air to breathe outside.

So, as we grow into that, we, what we call, find out, that we don't need to breath. It's the time, it's the next generation, next time, that it is bringing that position. We just got to wait. We watch our children, or our great grandchildren, or our grandchildren who come from the process through the birth of Mitra, structure of life, that they come that, then they don't consume. It's not just the food, we become the feeders of the universe, as much as we are fed by the U.

Any other questions?

Q: ... (3:16). He says, I've come to spirituality through someone that who explains it by way of quantum physics, and upgraded with your knowledge, since I'm here Mr. Keshe. I believe I understand exactly what you're saying. Yet, so far through history, it took humans the better part of their lives to reach, identification and joining with the soul of the Creator. And then these eastern practices also did not seem to understand the totality of it, so far. Is there some sort of practical instruction you could give us for our meditations, that would help us elevate more effectively? I have learned control over the emotions of my physicality, for instance, should I now literally, just try to dilute and join the field strengths of all my souls merging electron and proton?

K- What does that mean, I don't understand?

Q: ... You were explaining in the beginning, that the relationship of the souls to each other, is kind of like the electron to the proton. And if you say we could, well take the physicality with us, by taking the Soul of Physicality with us, then we need to join with it somehow. (3:18). And if we think about it with the electron and the proton and the dilution of the fields to join them together again, then this the question basically, would the process be the same end?

K- What do you mean by that? Explain, please,

Q: Well as it is laid out in the books, for example, you can bring the fields strengths to a level again, where they could rejoin. Is this what you're going at, in a practical sense,

when you're talking about the souls as well, like in the beginning of the presentation, now?

K- Bringing of the souls is through the emotion and connecting them to be able to understand it, it's a priority for us about our own creation. We have to test and trial.

Stop eating by Changing posture - create water in body

Go back to, it's in one of the teachings, we showed a picture. I think a few times we referred to it, about the guru from India, who came to the Keshe Foundation Center in Insanno in 2014. His station, his respect by his followers was, that he fasted for several times for 20 days or something like that in his life, (3:20). and he would not eat anything. We have people monitored, or some people in India or China do the same.

If you go to the exhibition center, on the first floor, as you enter, you see a meeting room with a white table. This table has come originally from the teaching table of the Insanno. This table is a table where we put the ball, and it went black when they planned my assassination, the Belgium's. He sat on one side of the table, and I sat on the other, and the translator, he didn't want. Before that meeting, everything had to be talked through to his translator. He was too holy to speak to me directly.

When it came to the meeting on this table on the top floor, he could speak English better than me. I told him, you have to teach your followers the truth, not to abuse your followers. And I explained to him how he was absorbing energy from the environment. He was cheating his followers. He was taking energy as food in a specific way, which is not hidden to us as Messengers, and I explained to him how he does it. He said, you understood my trick. I said, no, I understand your cheat.

It's very simple, you can do it too. (3:22). Sit upright. And move your lung and your stomach in different positions. But try to hold that position for a long time. Wish you want to have water, you're thirsty. Move the breathing rate, move the position of your lung, move slightly your stomach and posture in a very refined way, that you lose the thirst.

Now, you found the gimmick to extract energy from the environment, at the level of the water, because you satisfy the thirst. It's not very hard. These people are paid for days at a time to be under, "I have to be meditating." Rubbish, I'll find you a cheat.

How this time to have the taste of steak. And I have a steak without the steak here. Because I move my intestine a little bit, I change the position. Don't forget the energies of the air in the body of the animal changes to be ?? that steak. Now you are that animal. But now you learn the trick.

If you go a step further, stop breathing. Move the motion of your body in a position, that compensates for the energy, which the blood needs without the lung. You can live without breathing. Physicality of the man, if you understand it, is beautiful. (3:24).

When you get old, you shrivel, you shrink a little bit. Your lungs compresses. What do you get more than anybody else? Pneumonia? Why do old people die of pneumonia? Because they lost their posture. If you get the old people to stand upright, that their lungs doesn't collapse, the energy field within the lung does not create water, then it creates its own infection. Nobody will die of pneumonia.

So, meditating, in what way? Understanding the principle of creation is a different. And you know what happened? People who were present they tell you. The same thing happened when I was invited to the Vatican to meet the Cardinal. The skies opened up, storm beyond your imagination, because I broke, I broke the shackles of slaving man. He could not handle it, He came down and he tried to get me ?? there. But we gave back to what he was trying take.

None of us need to eat. None of us need air to breathe. We cannot do that, there is no air in the universe, there's no cows to eat, and there no grass to eat in the universe. By positioning, creating fields, we can satisfy.

We do that. Many of you do that, if you're intellect-ed enough in your sexual life. Why do you get Parkinson in men, always on the right hand. We create the imagination of the beautiful body of the young woman, (3:26). who was our wife when she was younger, because now she's in pre-menopause, she is not active, and we connect that to the cycle of our physical life, and we get Parkinson's. If we can create energy of the imagination, the taste, the texture, the emotion of the young girl we married 40 years ago, we can do anything in life, steak, kidney pie, strawberry, anything you like. And you will be walking, it was a nice steak.

This is what we have to learn, and this is the process, we don't need to breath. And then the next step comes, when you get to that level, then you find out, where is this energy that's been absorbed, and it's feeding me. It's trained to be absorbed by the STM. The sun shines within. When the sun shines on earth, the interaction of the fields creates calcium, sodium, and the rest of it. Now the sun is within you, it's your soul. And with the interaction of the physicality it creates everything. You can have even orange to the taste, and the color, and the smell you want.

Where is our best friend, one of our closest friends here, he can tell you what he did. We always listen to him. I've seen his name, he's been here. He is amongst us today, with the greatest of pleasure. Is he there, Alex from Nigeria, (3:28). have you seen him, Rick.

Alex was the first one who did this. You don't need. You have to understand process by process to go backwards. Sit up, satisfy your thirst. Satisfy by different breathing, by different rates, by different ratios. And the beauty of this thing is, that people, that these people can still urinate after 21 days, because they already created the water in their structure.

Now we understand the science behind it. And the beauty of it is, now Keshe Foundation has 500 million followers around the world. Nobody can cheat you lot. No Rabbi's, no Ayatollahs, no priests.

Don't forget, if the guy sits upright with little bit twisted to the left, and he's getting the energy of a banana, and tastes something, doesn't mean that works for you. You might have to turn slightly, double right, to get the same taste, because your mixture is different. So you cannot copy.

You walk the fields of oranges, you don't pick an orange. You smell it and without that smell, and you absorb the taste of it, you become that Cup. Anywhere in the universe you can create that orange, and you don't need to get Parkinson's. Because now you recorded it on the STM, (3:30). and not on the RNA or DNA, and this will bring man huge changes. Huge changes will come from understanding of this process.

Any other questions? Learn the knowledge and don't get stuck in hypocrisy.

(I will tell you one thing, if you don't mind, we have reached donation of 45,000 Euro. Still short by another 100,000, and thank you very much for your donations. We have reached our target of 45,000 Euros donation and support from the foundation. We need, we achieved 1/3 in past two hours. We need more to be able to complete today. Please pay directly to the Foundation, it is much easier for us, because otherwise, we have delay in Paypal. Thank you very much).

Go ahead.

Q: .. Can you say that the emotion is like a telephone number, it's attached to specific field strength? So if I want to connect to the Creator, I use the unconditional love connection like a line?

K- In a way, yes, but you have to know the telephone number. (3:32). You carry a phone in your hand, there are billions of numbers out there, you want to call your boyfriend, you have to have his right number. Maybe that boyfriend is the Creator, but you have to know the strength of and to be at his level, to be able to contact.

If you're carrying what do you call it a home phone (land line), you cannot wirelessly connect yourself to the mobile phone. Unless there is a connection, somebody else become an intermediary to put it on, the what you call, transmission. A man is the home phone stuck to the ground. You need that transition of transmission to get the right strength and ride number to get to the other side? "ET" call home if you remember, or "ET" go home either way.

R: So it's not the unconditional love, the actual connection to the source, or Creator? If we follow that unconditional love, would we not be getting closer to that connection?

K- In a way, yes, in a way we do it. In a way it is part of us, which is already achieved that.

R: So most of what we call unconditional love is probably has aspects of conditionality to it. So we think it may be unconditional love, but it's still not the totality, and perhaps that, if we were really to touch on that totality, it would be the direct connection, but it might be very rare for that to occur perhaps? (3:34).

K- Yes. It's not rare. We have to learn and remember the number, as you call it. We have the same as we remember, how we create the. You know the actors, or actresses out of nowhere they can create tears in a scene, because they've been trained how, and most probably they remember the most love they had, the most painful thing and it makes them to tear up, or they spray them to tear up. We have to learn, do we want to tear with a spray, or we want it through the emotion of what we love, or when you love somebody it brings the tears from the strength of it. Then you can, when you play the act, you remember the strength, that's all you got to do. It's very simple, It's extremely, extremely simple.

Any other question

K- Let's see what the German community has. I have to explain to you what the German community are supporting heavily by presentation in the exhibition center (EC) (3:36). The EC now has moved to four days, possibly five days full time. Try to come from around the world to see it. Now all the restrictions of the corner has been removed from more or less all of Austria acts of Vienna. Come in and see and see the future of mankind and see what is set out what is there and what but at your knowledge and you're taking changes between industry and bring job creating new dimension in your environment.

If you walk it you don't understand it but the way Mario explains .. is on the way we have Herbert joining us back in trying hopefully to do the presentations. You fall in love with the knowledge and that's all the exhibition is for. And then you understand it like me always is summertime bring your children let them see the future and maybe they make the future by understanding it. I was touched at the age of eight to make the change. You can imagine if your children age of eight and 10 touched by the new knowledge what they can bring for the next generation. Make it a place where you become the house of knowledge and then the knowledge or comments on

Q: R: The translation is a number 1-1-9-8-1 Gregory Grabavoir, the telephone number to the Creator was from Steff and something (3:38). about Gregory grab telephone number to the Creator 11981. Then she asked, if you know anything about that?

K- (laughs) Now we found the secret of His mobile number. I thought His lover was the only one who had the number. Now we got to tell Eve what happened to the Adam, and tell the Mitra, what the God's number has been put in public.

...

R; I just wanted to mention that we have the translation function here. And I should have mentioned it at the beginning perhaps. But right now we have the Portuguese and German audio translation going on a simultaneous translation in this zoom webinar. And people go I think it's to the more dot, dot, dot thing and you can select her in the

preferences. You can select interpretation and select the language that you're most familiar with. If it's Portuguese or German, we'll have others as well coming on. And then you go to a separate room and you'll hear the translator during the interpretation of today's teaching. You have a choice of just the interpretation, or with Mr Kesh his voice at the same time. (3:40). So just to let people know this a new feature we're just trying out. And there's also a what's called a live transcript function, which I did not activate today, maybe we'll try that next time. And people can get a live or get a recording of the transcript and actually look at the live transcription going on at the same time. It's not a perfect and perfect English transcription, but it's might be useful for some people.

That's good to know.

Q: ... I'd like to know, in a health teaching, you said, that the STM leaves the body, at the exact moment that he must. But you said, that is beyond our imagination. I'd like to know about more about this. Because I was a little bit confused.

K- Can you repeat,

Q:. repeats ... (3:42).

K- Go back to the matter state, maybe you understand better. In the matter state, the strength of the fields of a magnet dictates its position. When you put two magnets next to each other, they create a distance gap, what we call, MaGrav - magnetic gravitational field positioning.

If you put a winding around one of the magnets, can do it, if you understand how to do it, and increase the flow of the fields in one of the magnets. You will see maybe the other magnet come slightly closer, or move further. You can reach that position by creating these kinds of magnetic fields, which is done for some ?? purposes, some industrial purposes, that the other magnet literally shoots up, without doing anything to it. It becomes a trajectory.

We see it in the slaughter houses in a different shape, like a bullet, but it's releasing and attracting. Now, (3:44). your STP becomes that winding, and your Soul becomes the other magnet. But in this case, the STP has given his energy to the soul. So, now the soul is energized, and when the point comes, that the STM energy super passes the blood flow cage, it takes off. In taking off, what happens, the physicality stays behind, but the soul has gone, point of death.

Why most of us die at the old age? If you can keep the circulation of the blood, and the energy levels of your body, at the strength that does not come lower, than controlling the cage of the fields of the soul, you do not die. You can extend your life.

The minute the STM receives more energy as part of the information, emotion, or whatever else, and the cage becomes rusty and weak, the Soul has nothing to hold it, it becomes the point of death. So, our aging is by circulating less blood, feeding the soul more from the STP, and dimension of emotion, and whatever energy. It becomes more powerful, and it jumps, it creates that, it becomes that bullet to new position. (3:46).

Breaks through the weak cage, which is rusty, which is the old age of man, the blood cannot hold, the circulation is not that strong, then you die.

Because the soul is gone, physicality stays behind. Is it escapism for the STM? We escape from it, we become good in doing it, and in that process, we interact, we increase, we add to it by expansion of strength. And that's how the death comes. Physical separation of the STM from STP.

But you got to understand, the minute this process starts, which the Soul of Physicality becomes slowly aware, that it's losing control to the STM, it transfers most of the energies, which are within it, within the STM, within the STP of the man, and the physical energy of the body of the man, to the STM. So, it suddenly receives a rapid field energy, because it's aware the blood flow is weak, and then the soul departs. It becomes that bullet.

But that bullet, through it's interaction with a field strength is already destined for a position, for it to find its balance. Then in that position, it becomes, because it has no physical structure, STP with it partially, it becomes a star. (3:48). That star starts a new life, in a galaxy, in the universe, as a dust in the world of the creation.

In a way, you created a "soul" shooting star, and you have to see, if it has enough at the point of arrival, that it becomes the source, it becomes the beginning of a new cycle for the soul.

The whole purpose of creation, is to create new essence of creation, which is another star, which is the STM, but not within the physicality of the man, but in another D. It doesn't matter how long you keep this together, you can always play one against the other, or one within the other, that you live everlasting life of the Creator - I made man the image of Myself. Because I become the man, that within it I be in connection with Me, I keep a total integrity, and totality of integral fields of what I started with. So I don't lose anything.

This is the secret of creation, it's the secret of life, in the dimension of the existence. As the Arab says, ?? This is it, this is the final, as we understand the beauty of the Creator. All the beauties are ?? there and there is no more. It's you have to understand how beautiful it is. As all the beauties, .. which is the kindness, the love of Creator is already given. It's us who have to understand.

Thank you very much for today, please keep the donations, and what you want to give to the foundation on, we have reached around 45,000. (3:50). We need another 100,000 to be fully covered. We need it today, not tomorrow, in any shape or form. Make a loan to the Foundation, we'll return it.

We do not open another church, another castle. We want to make homes for where people will not be a slave. But we elevate the souls of everything in One Nation, which is what a man wants now.

Thank you very much for today. And I hope, I hope we'll have much beautiful news for you in the coming days, as this progress hopefully can be completed today. ..
We still need to reach our target.

R: I'll put the direct donation site here are address on the on your screen, so you should be able to see it. And that's all the information you should need to go to your bank to make a direct wire transfer or Swift payment through the banking system. And that's the preferred way of making a donation where it goes through immediately. If you're really stuck and can't do it that way, once again, there is a donation button here in the upper just above the Hello part of Hello, we are the Keshe Foundation, it's a bit of a small button, so don't miss that if you can't do the direct banking transaction.
